

Moisture-Resistant Plasterboard

PRODUCT DESCRIPTION

Through the development of extensive research by BMI, it is the latest advancement in moisture-resistant plasterboard range.

ADVANTAGES

- Heavier shank & thread diameters than most "heavy duty" roofing fasteners.
- Deep thread for high pull-out resistance.
- Extra sharp drill point for quick installation in new or reroof applications.

MOISTURE RESISTANT

Low water absorption board

AESTHETIC

- Seamless and smooth finish
- Work as an ideal interior tile substrate, able to accommodate tiles finish.

CONSISTENT QUALITY

Produced in a state-of-the-art ISO 9001 certified plant.

FUNCTIONALITY

Plasterboard designed to offer decorative finish with water-resistant performance.

PRODUCT INFORMATION

Thickness (mm)	9.5	12.5
Weight (kg/m ²)	6.40	8.10
Size* (mm)	1220 mm x 2440mm (4' x8')	
Product Standard	BS EN 520:2004	
Product Testing	BS 476 Part 6 & 7	
Edge Detail	Tapered	

*The above is standard size, please refer to the BMI for other board sizes.

In view of innovation, the specifications are subject to change without any prior notice and in the event of such changes, BMI shall ensure that the new specifications are equivalent if not better.
