

MONIER

EasyFlash[®] Plus

Part of **BMI**

Monier EasyFlash[®] Plus, Leak-Proof Solution for Wall Flashing

EASYFLASH[®] PLUS is a watertight dry fix solution specially designed to replace traditional metal flashing for wall abutment. It is highly stretchable coated aluminium (up to 50% in roll direction) ensures neat and all-weather sealing of junctions between walls and roof tiles, while the surface provides long life durability. It has a full self-adhesive butyl backing allowing for self-fixing onto dust free surfaces, sealing off corners and joints with a standing seam technique.

WATER-TIGHT PERFORMANCE

- Complete peace of mind
- Long-lasting water-tightness

AESTHETIC

- More enduring and tidy finishing versus traditional metal flashing
- Available choice of colours for selection and matching

FLEXIBILITY

- 50% Stretchable coated aluminium

DOES NOT SUFFER FROM WIND UPLIFT

- Fully butyl cover provides strong adhesion on the surface of the roof tiles and the wall, preventing wind uplift

EASY OF USE & FAST INSTALLATION

- Easy to apply to most surface and all types of wall connection, wall junctions, dormers, apron, chimney and fire walls
- No specific tool required easy to handle and install, at least 30% faster than conventional methods

PRODUCT & TECHNICAL DATA

Material	Coated aluminium composite with self-adhesive butyl		
Width	250mm / 280mm		
Length	5m per roll	Operating temperature range	-20°C to 80°C
Thickness	1.3mm including release film	Application temperature range	+5°C to 40°C
Colours	Anthracite / Brown / Red	Storage condition	<30°C up to 2 years
Recommended Specifications	Monier EASYFLASH® Plus is a dry fix solution for wall flashing (in colours***) to be sealed with Monier Wakastrap (in colours****) to be installed accordance with Monier's recommended installation method.		

**Please specify Easyflash® Plus width (250mm, 280mm)

***Please specify colour (Anthracite / Brown / Red)

****Please specify colour (Red / Brown / Grey)

In view of innovation, the specifications are subject to change without any prior notice and in the event of such changes, Monier shall ensure that the new specifications are equivalent if not better.

MONIER EASYFLASH® PLUS APPLICATION

Monier Easyflash® Plus requires a permanent fixation onto the upper edge.

x > depends on local installation requirement
y > 75mm - 120mm

Labels in diagram: Tiles, Wall, Sealant, Screw / Nail, Wakastrap, x, y.

WAKASTRIP

It is nailed / screwed onto the Easyflash® Plus and the wall to provide additional sealing against water ingress. The top end is then sealed with a suitable weather resistant sealant.

Material	Clean colorbond steel
Colours	Red / Brown / Grey

Labels in diagram: 11mm, 12mm, 19mm, 57mm, Nail Hole, F-400mm+400mm+400mm, Length: 1,200mm.
