VED RATES.

VED rates shown are based on minimum CO₂ emissions figures. Vehicles which achieve maximum CO₂ values may incur a higher VED charge, please see below table for VED rates.

CO ₂	0	1 to 50	51 to 75	76 to 90	91 to 100	101 to 110	111 to 130	131 to 150	151 to 170	171 to 190	191 to 225	226 to 255	Over 255
12 Months	£10	£115	£135	£280	£365	£405	£455	£560	£1,410	£2,270	£3,420	£4,850	£5,690

CHARGING.

The MINI Countryman includes a Mode 3 Charging Cable for public charging and the MINI Charging Card as standard, granting you access to the continuously expanding public charging network. If you wish to charge your MINI at home, the optional Mode 2 Flexible Fast Charging Cable with 3-pin plug can be purchased, or you have the option to install a Wallbox with our partner [Pod Point](#). A guide to charging times and rates are below, these are dependent on the local electricity infrastructure.

TYPE	RATE	E (hrs:mins)	SE ALL4 (hrs:mins)
HOME CHARGING (AC 0-100%)			
Charging with Mode 2 cable (Flexible Fast Charger with 3-pin plug)	2.3 kW	34:30	34:30
Charging with Wallbox	7.4 kW	10:00	10:00
PUBLIC CHARGING (AC 0-100%/DC 10-80%)			
AC charging with Mode 3 cable	11 kW	06:30	06:30
DC charging at max charge rate	130 kW	00:29	00:29

Electric power consumption/fuel consumption, electric range values and CO₂ will vary dependent on vehicle specification. Build your MINI and decide the specification using the [online configurator](#).

Prices and Specifications.

MINI UK reserves the right to alter prices and specifications without notice. MINI UK has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

July 2026.

* = The MINI Countryman is a battery electric vehicle requiring mains electricity for charging. Whilst we recommend the battery for this vehicle is charged to 80% to help optimise the life of your battery, the electric range figure shown is the WLTP figure after the battery had been fully charged to 100%. WLTP figures are shown for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post registration), variations in weather, driving styles and vehicle load.
