FEELING ELECTRIC.

EXPLORE THE MINI ELECTRIC.

If you're looking for a car that's all torque, as well as action, then let us introduce the latest MINI Electric. It feels better than ever, with immediate oomph thanks to instant torque. And it looks better than ever too. With a sharper, sleeker update to its legendary MINI look and, of course, that MINI Electric feeling. The MINI Electric is the best of both worlds, giving you the iconic character of MINI with all the benefits of going electric. Emitting zero emissions, it's the perfect combination of sustainable driving, thrilling driving performance and iconic MINI design. The MINI Electric is reinventing urban life.

MINI ELECTRIC LEVEL 2
FROM £31,000 OTR

MINI ELECTRIC LEVEL 3
FROM £34,500 OTR

MINI ELECTRIC RESOLUTE EDITION

- Passenger seat height adjustment

TECHNOLOGY:

- Acoustic pedestrian protection
- Automatic transmission
- Cruise control with brake function
- Electric parking brake
- Heat pump
- MINI Driving Modes
- Pre-conditioning
- Rain sensor and automatic headlight activation
- Two levels of power regeneration

INFOTAINMENT:

- DAB digital radio
- eDrive Services (ability to initiate charging, monitor charging status and locate public charging stations)
- Media Pack
Comprising 8.8" centre display screen, Apple CarPlay®, Bluetooth® wireless technology hands free function with USB audio, ConnectedDrive Services (including Online Search and Weather Information), Intelligent emergency calling (E-call), MINI Connected and Remote Services
- MINI Teleservices

CHARGING:

- AC and DC charging
- AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW). Flexible charging cable can charge up to 11kW with optional interchangeable adapter, and a suitable power source.
- AC public charging cable (type 2 – 11kW)
- MINI Charging (access to thousands of public charging points in the UK across a range of providers, using just one RFID card or via a mobile app)*

Charging points on the map shown may not reflect actual charging locations, for charging locations please check out Zap-Map, the MINI App or the MINI Charging App. *For more information about MINI Charging please visit [MINI-Charging.com](https://www.mini-charging.com) †These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent.

ON THE ROAD PRICE

The recommended On The Road price is based on the Recommended Retail Price (RRP) and On The Road charges. OTR charges include:

Delivery and Emergency Service	£500
Number plates	£25
Vehicle first registration fee	£55
Vehicle Excise Duty	See below

VED RATES

VED rates for brand new cars are determined by their CO₂ emissions figures. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The MINI Electric models fall into the category listed below:

Electric	
CO ₂ emissions (g/km)	0
First year VED	£0
Annual VED (second year onwards)	£0

PRICES AND SPECIFICATIONS

MINI UK reserves the right to alter prices and specifications without notice. MINI UK has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

*These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures. The CO₂ figures have been determined according to the WLTP test. WLTP has been used as the applicable CO₂ figure from 1 April 2020 for first year vehicle tax (VED) and from 6 April 2020 for company car tax (BIK). The CO₂ figures were previously based on the NEDC equivalent.

CONVENIENT CHARGING SOLUTIONS.

HOME AND PUBLIC CHARGING.

EASY HOME CHARGING OR CHARGING ON THE GO.

The MINI Electric includes AC for easy home and public charging and DC for rapid public charging.

CHARGING CABLES.

The MINI Electric comes with both an AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW) and an AC public charging cable (type 2 – 11kW) as standard.

PUBLIC CHARGING.

You can use both AC public charging and DC rapid chargers (with their own cables ready to use). Just activate your MINI Charging account to access thousands of public charging points in the UK.*

HOME CHARGING.

You can charge your car at home using the AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW) or your Homecharge unit.¹

CHARGING TIME.²

Home charging (AC)

With AC home (occasional 3-pin plug) Flexible charging cable (type 2 – 2.3kW)	2.3kW	12 hours
With Homecharge unit ¹	7.4kW	3 hours 12 minutes ³

Public charging (AC/DC)

With AC public charging	11kW	2 hours 30 minutes ⁴
With DC rapid charger	50kW	36 minutes ⁵

MINI CHARGING.

MINI Charging is your gateway to one of the world's largest public charging networks. You will have access* to thousands of public charging points in the UK across a range of providers, using just one RFID card or via a mobile app. What's more, your MINI Charging account is also valid across Europe.

You can monitor your charging history directly from your account, and you can find MINI Charging locations via the MINI Charging App or on [MINI-Charging.com](https://www.mini-charging.com)

PARTNERSHIP WITH POD POINT.

For home charging you can use the Pod Point Solo 3 Homecharge unit.

For more information please visit pod-point.com/guides/vehicles/mini/2020/electric

*For more information about MINI Charging please visit [MINI-Charging.com](https://www.mini-charging.com) [^]Source: Zap-Map. ¹The Homecharge unit is not included in the price of the car, it has to be purchased separately. For more information please speak to your MINI Retailer. ²Charging time corresponds to an 80% charge. Charging times are approximate and may vary depending on various factors such as the type and condition of the charger and the temperature of the battery at the point of use. ³Charging time applies to any 7.4kW Homecharge unit. ⁴A 100% charge is achieved in 3 hours 30 minutes. ⁵A 100% charge is achieved in 1 hour 24 minutes.

COSTS AND TOP TIPS.

HOW MUCH DOES IT COST TO OWN A MINI ELECTRIC?

FINANCIAL PERKS.

If you're considering the MINI Electric as your company car, it will have a BIK tax rate of 2% for the year 2022/23.

CHARGING COSTS.

The cost per mile for the MINI Electric is only 5p, which is approximately **2 to 5 times cheaper** than cars with a petrol or a diesel engine.*

* Cost per mile for cars with a petrol, diesel or LPG engine varies between 9p to 25p. Source: [UK Government website](#) (25 May 2022). ^ The Warranty on the battery is 8 years or 100,000 miles, whichever is reached first.

LIVING WITH ELECTRIC.

IDEAL FOR SHORTER OR LONGER JOURNEYS.

Your life may evolve. Your schedules may vary. But the MINI Electric will accommodate you for shorter or longer journeys.

YOUR AVERAGE WEEK DAY.

YOUR TYPICAL SUNDAY.

*Cost based on cost per mile of 5p. **For illustration purposes only and based on the estimated driving range of 140-144 miles. Electric range figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, accessories fitted (post-registration), variations in weather, driving styles and vehicle load. These figures were obtained after the battery had been fully charged. The MINI Electric is a battery electric vehicle requiring mains electricity for charging. There is a new test for fuel consumption, CO₂ and electric range figures. The electric range shown was achieved using the new test procedure. Figures shown are for comparability purposes. Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedures.

MINI APP.

With your MINI Electric, the MINI App includes some unique remote features:

- Pre-condition your car remotely
- Search for charging stations near your car or any location
- Check the range remotely
- Check the charging status remotely
- Start charging your car remotely
- Assess the driving efficiency of your latest journey

To get the MINI App simply download the App from your compatible Smartphone App Store.

For more information please check out the **MINI App Discovery Guide**, visit mini.co.uk/connected or scan the below QR code.

MINI OWNERSHIP

IT'S YOUR MINI, BE BOLD.

MINI ELECTRIC SERVICE INCLUSIVE.

With MINI Electric Service Inclusive, you can cover your servicing costs for a guaranteed time¹. Protected from price rises or inflation, you're good to go.

The MINI Electric Service Inclusive plan includes:

- Four years' cover
- Vehicle check service
- Micro filter service
- Brake fluid service

Price from £269¹

MINI TRACKSTAR.

Locate and recover your vehicle if it is stolen with MINI Trackstar or MINI Trackstar Advance.

Benefits include:

- 24/7 Trackstar Monitoring Centre
- Thatcham accredited
- Integrated motion sensor
- Pan-European protection

MINI Trackstar product offering	Price ³
MINI Trackstar S7	£410
MINI Trackstar S5	£549
MINI Trackstar S5 Advance	£649

MINI SHARING.

MINI Sharing is MINI's new peer-to-peer sharing service. It lets you easily share your MINI with your family, friends and colleagues when you don't need it yourself. This mobile solution offers you a shared calendar between you and your drivers. This helps you manage your sharing times and provide keyless access for the drivers to your MINI. But the benefits don't end there. As an owner yourself, you can also use the MINI Sharing app to locate, open, drive and close your MINI with the MINI Sharing app. You can get MINI Sharing directly when ordering your new MINI, and you can also order this option on your current MINI via MINI Aftersales.⁴

[Click here](#) for more information.

MINI Sharing offering	Price
Module and installation	£320 ⁵

MINI ELECTRIC PAY MONTHLY.

The cost for your Service Plan is fixed for its duration, so you're protected against inflation and any price rises that might happen in the future. If you ever come to sell your MINI, you'll have the option to keep the plan and transfer any unused balance to your new MINI, so no worries about not using all of it.

As well as two services, the MINI Pay Monthly Servicing plan includes:

- One MOT
- Fluid top-ups
- Seasonal health checks
- Sat Nav Map updates
- Wash and Vacs at each visit

Price from £10² per month.

[Click here](#) for more information.

¹ Price includes VAT. Terms and Conditions Apply. ² Price per month for 48 months. Terms and Conditions Apply. ³ Price excludes subscription, please consult your local MINI Centre for further details. ⁴ Your MINI must be built after March 2021 to be able to install MINI Sharing, as Flexible CarSharing Preparation is required. You can check with your local MINI Retailer to make sure your MINI meets the requirements. ⁵ Please note retailers may charge an additional cost for fitting.

FAQ.

Q Is the MINI Electric only available as a 3-door?

A Yes.

Q What is the Warranty on the battery?

A The Warranty on the battery is 8 years or 100,000 miles, whichever is reached first. The battery is also included in the price of the car.

Q Are there single options available to select?

A Yes, you can now personalise your MINI Electric even more with the single options offered on both Level 2 and Level 3, such as Roof rails, Darkened rear glass, Piano Black Exterior and even a Multi-tone roof. A large selection of paint and wheel options is also available on Level 2 and Level 3 at no extra cost.

Q How much does it cost to charge the MINI Electric?

A Based on £0.163 per kWh on average it costs £5.31 for a full charge. 1 mile costs only 5p.

Q How can I find public charging stations?

A Just use the MINI App on the move or see the charging locations integrated into your Sat Nav! To find MINI Charging points you can also use your MINI Charging App or check the MINI Charging website: [MINI-charging.com](https://www.mini-charging.com)

Q How and where can I charge my car?

A You can charge your car at home using your AC home (occasional 3-pin plug) Flexible charging cable (type 2 - 2.3kW). You can also charge your car at one of many public charging stations in the UK, using either AC or DC charging.

TAKE THE NEXT STEP.
