

Therapeutic Skin Care

Summary:

As the body's largest organ, skin health is closely tied to overall health. P&G Ventures is looking for new technologies to help consumers keep their skin looking, feeling and functioning at its best especially in addressing acne, sun protection, hyperpigmentation, eczema and psoriasis.

Description

As the body's largest organ, skin health is closely tied to overall health. P&G Ventures is looking for new technologies to help consumers keep their skin looking, feeling and functioning at its best especially in addressing acne, sun protection, hyperpigmentation, eczema and psoriasis.
