

# What Home Means To Me

**Aims:** To think about what makes a house a home and the importance of a safe home for everyone **Task:** Use the Shelter Scotland rooftops design to draw a home and include items showing what home means to you

**Reflections:** Guided discussion about personal safety, the people we love, our favourite things, good memories of home, favourite sounds or smells etc. What makes a house a home and why do you think Shelter Scotland says they will continue their work until there is a safe HOME for everyone and not just a safe HOUSE. How can the concept of home affect your future prospects?
