

US Dual Ticketing Guidelines

Dual Ticketing is the requirement that a PO include both the URBN Retail Ticket/Label and Direct SKU Label. This requirement is defined by [PO Sell Channel](#), Brand, and Product Category.

Please note, the Dual Ticketing Examples provided are for reference only and do not include every product category.

Frequently Asked Questions

→ What is Dual-Ticketing?

Dual Ticketing is the requirement that **Direct, Omni,** and *select Retail* Purchase Orders include both the Retail Ticket/Label and 3x3 Direct SKU Label.

→ Do Retail Orders need to be Dual-ticketed?

Select Retail POs require Dual Ticketing.

- Please refer to the Retail PO Dual Ticketing section of the [Pre-Ticketing Requirements](#) page for instructions.

→ How do I order these labels?

Vendor will be required to **order** the Retail Ticket/Label and Direct SKU Label from [Fineline](#) or [Checkpoint](#). Vendors are not permitted to print their own.

→ How do I apply each label?

Vendor will be required to **apply** the Retail Ticket/Label and Direct SKU Label.

- By using the [Pre-Ticketing Requirements](#) page, please refer to the below sections for Retail and Direct Placement:
 - **Retail Ticket/Label Placement Instructions** by Brand
 - **Note:** All existing vendor barcodes must be covered with the URBN Retail Label or a plain white sticker if the URBN Retail Label is not large enough to completely conceal.
 - **Direct SKU Label Placement Instructions**
 - **Note:** The Direct SKU Label should always be centered on a polybag or product whenever possible.
 - Specific Pre-ticketing Instructions by Product/Brand are also available on this page.

→ Do you have examples of Dual-Ticketed items?

Please refer to the following **US** Dual Ticketing Guidelines for placement instructions of the Direct SKU Label and Retail Ticket/Label.

- Please note, the following pages are for reference only and do not include examples of all product categories.
- It is **critical** that the Retail Ticket/Label not show through the polybag on the same side as the direct label and/or that it should be applied on the opposite side of the product.

→ What happens if I don't comply with this requirement?

Failure to comply with the Dual Ticketing requirements outlined in this Guideline may result in a [Chargeback](#). Please refer to the **Do's and Don'ts** slide for additional guidance.

For specific product questions on where to apply the Tickets/Labels, please [contact](#) Vendor Relations.

Product Packaging Examples

SMALL ITEMS IN DECORATIVE PACKAGING

Retail Label to be placed on back lower right corner of product. Direct SKU Label applied to polybag on the opposite side.

LARGER ITEMS IN DECORATIVE PACKAGING – NO POLYBAG

Retail Label to be placed on the end of the product packaging. Direct SKU Label applied to the center bottom of box.

LARGER ITEMS IN DECORATIVE PACKAGING - POLYBAGGED

Retail Label to be placed on the bottom of the product packaging. Direct SKU Label applied to polybag.

NOTE: Do not cover critical product information with the Retail Label or 3x3 Direct SKU Label. All items that cannot accommodate the 3x3 Direct SKU Label must be placed in a polybag.

Fragile Items

FRAGILE ITEMS

Apply the Retail Label to the bottom of the product. Fragile Items (glass, ceramic, etc.) must be bubble wrapped and individually boxed. The Direct SKU Label can be applied directly to a non-decorative box. A decorative box will need to be polybagged if the Direct SKU Label will cover any product information.

SEMI-FRAGILE ITEMS

Apply the Retail Label to the bottom of the product. Semi-fragile items should either be bubble wrapped or individually boxed for an added level of protection. Apply the Direct SKU Label to the polybag or non-decorative box. A decorative box will need to be polybagged if the Direct SKU Label will cover any product information.

NOTE: Do not cover critical product information with the Retail label or 3x3 Direct SKU label. All items that cannot accommodate the 3x3 Direct SKU label must be placed in a polybag.

Do's and Don'ts

DO NOT:

- **DO NOT:** Place both Retail + Direct Label on the same side of the product.
- **DO NOT:** Conceal product information with the Retail or Direct Label

If Product Surface/Packaging cannot accommodate 3x3 Direct label, item must be polybagged.

- **DO NOT:** Fold the 3x3 Direct SKU Label.
- **DO NOT:** Attempt to duplicate any of the URBN Tickets or labels.

DO:

- **DO:** Cover the existing barcode with the Retail Sticker, whenever possible.
- **DO:** Place the 3x3 Direct label on the center of the product/polybag.

3x3 label should be applied above or below Polybag suffocation warning, if applicable.

- **DO:** Review [US Product Packaging Requirements](#) before applying your tickets/labels.
- **DO:** Apply Retail Ticket/label and 3x3 Direct label on opposite sides of the product.
