GD02	Godet Width @ Bottom-Along Curve or Straight	<p><u>GD02 Godet Width @ Bottom-Along Curve or Straight</u></p>  <p>The diagram illustrates two methods for measuring the width of a godet at the bottom. On the left, labeled 'Straight', a vertical line is drawn from the apex of the godet to its base, and a horizontal red double-headed arrow measures the width across the base. On the right, labeled 'Along Curve', a similar setup is shown, but the red double-headed arrow follows the curve of the base of the godet.</p>
GD03	Godet Point from CF	<p><u>GD03 Godet Point from CF</u></p>  <p>The diagram shows a godet with a vertical dashed line labeled 'CF' (Center Front) passing through its apex. A horizontal red double-headed arrow measures the distance from the 'CF' line to the side edge of the godet at a specific point.</p>
GD04	Godet Point from CB	<p><u>GD04 Godet Point from CB</u></p>  <p>The diagram shows a godet with a vertical dashed line labeled 'CB' (Center Back) passing through its apex. A horizontal red double-headed arrow measures the distance from the 'CB' line to the side edge of the godet at a specific point.</p>
