# *SOP-Applying Digital Fabrics in CLO3D*
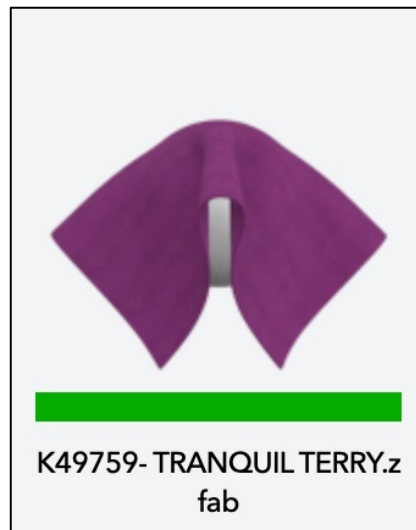

# CLO-Set Navigation

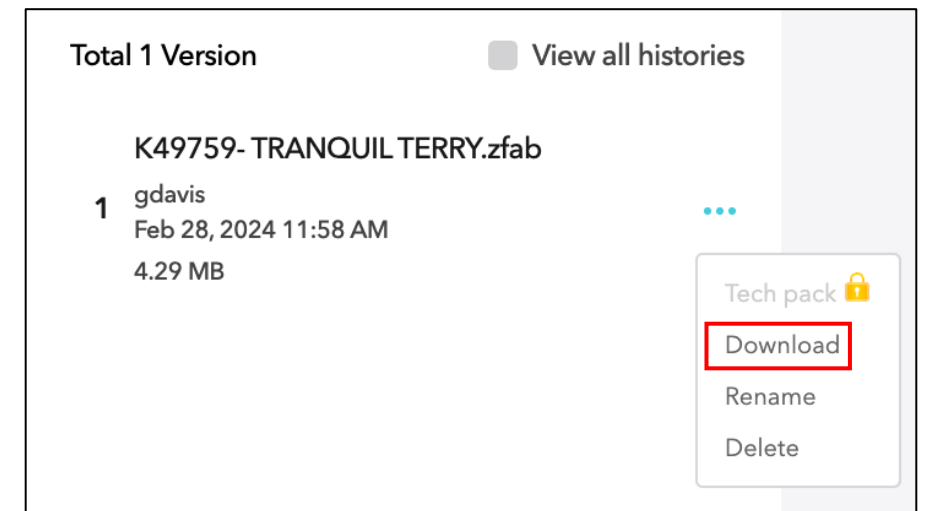

Open the fabric team folder within the CLO-Set library

Search the material code for the needed fabric in the search bar

Click on the fabric image
(Only fabrics with a green bar are fully validated for correct drape)

Click on the three dots next to the file name and download the .ZFAB

CLO3D Application

Within the object browser in CLO, click on the fabric tab, then click the folder icon in the top right corner and select the ZFAB downloaded from CLO-Set

Once the fabric is added, select the pattern pieces in the 2D window that will contain this fabric, and either drag the fabric image into the pattern, or click the arrow (assign) icon.

Thank You!
