Discover a Magical Christmas in Finland

Spend your next Christmas in a snow-covered village where streetlights are turned off in the afternoon so that you can see the Northern Lights.

This beautiful small village is your home for the week; shop with the locals, feed reindeers outside the supermarket afterwards and then have hot chocolates in the cafe on your way back to your cabin.

You will stay in cosy log cabins, each with their own fireplace and sauna. Enjoy great local food and join in some exhilarating winter activities like husky and reindeer sledding, ice fishing and snowmobiling.

Visit a Lapp Village where the day is spent enjoying winter activities and making gingerbread biscuits and Christmas decorations. The highlight of the tour is when each family receives an invite for a private visit to Santa's cabin, travelling through the snowy forest by sleigh.
