<b>83</b>		Methodology

# Executive Summary

In the fourth quarter of 2020, the New York City average residential sales price, which covers condominiums, cooperatives, and one-to-three family homes, was \$953,733 - a 3% decline year-over-year and 7% decline from the previous quarter. Broken out, the citywide averages were:

- Condominiums: \$1.4 million
- Cooperatives: \$643,208
- One-to-three family homes: \$885,828

Total residential sales volume, or consideration, decreased from \$9.9 billion to \$9 billion year-over-year, representing a 10% drop. However, after three consecutive quarters of declining consideration, Q4 2020 represented a 39% increase from the previous quarter.

Borough Year-Over-Year Change in Total Consideration:

- Manhattan: -30%
- The Bronx: -10%
- Brooklyn: +11%
- Queens: -2%
- Staten Island: +28%

The Citywide residential transaction volume also decreased year-over-year, declining from 10,057 to 9,397 sales, representing a 7% drop. Three of the five boroughs experienced a decrease in the number of transactions year-over-year. After three consecutive quarters of declining transactions, Q4 2020 represented a 49% increase from the previous quarter.

Borough Year-Over-Year Change in Number of Transactions

- Manhattan: -26%
- The Bronx: -17%
- Brooklyn: +3%
- Queens: -7%
- Staten Island: +25%

## Manhattan & Brooklyn Active Listings:

- 4,941 condos with an average asking price of \$3.3 million
- 4,149 co-ops with an average asking price of \$1.7 million
- 971 one-to-three family homes with an average asking price of \$5.5 million

## Manhattan & Brooklyn In-Contract Listings:

- 2,862 condos with an average asking price of \$2 million
- 2,299 co-ops with an average asking price of \$1.2 million
- 486 one-to-three family homes with an average asking price of \$2.3 million

# Citywide: Condo Closings

## Key Takeaways

- Units sold citywide: 2,040 condos, a 2% increase year-over-year
- Total consideration: \$2.9 billion, an 18% decline year-over-year
- Citywide average condo sales price: \$1.4 million, a 19% decline year-over-year
- Greatest share of closings: Two bedroom units at 39%
- Greatest share of closings by dollar volume: Two bedroom units at 35%
- Largest price bracket: \$500,000 - \$1 million units at 39% share of closings
- Largest price bracket by dollar volume: \$1 million - \$2 million units at 25% share of closings
- Borough with largest number of closings citywide: Manhattan with 43% of transactions
- Borough with largest consideration of closings citywide: Manhattan with 69% of total consideration

# Methodology

The Real Estate Board of New York’s (REBNY) Quarterly Residential Sales Report is New York City’s most comprehensive compilation of residential sales data. The report captures the citywide and by borough breakdowns of closing data for condominiums, cooperatives and one-to-three family dwellings by analyzing official data from NYC Department of Finance’s Automated City Register Information System (ACRIS) and Perchwell — a company providing comprehensive, standardized real estate information.

REBNY’s Quarterly Residential Sales Reports track recorded residential sales closings, active residential listings and signed residential sales contracts, as well as average price and price per square foot of residential listings, and media price and median price per square foot of residential listings. The report also includes borough maps indicating real estate trends by NYC neighborhoods. All REBNY research reports can be found at [go.rebny.com/Reports](https://go.rebny.com/Reports).

## KEY TERMS

### Recorded Sales/Closings

Recorded sales are all units that have closed throughout the quarter, including condominiums (condos), co-operatives (co-ops), and 1-3 family dwellings. As classified by the NYC Department of Finance, building classes considered include:

- Condos: R1, R2, R3, R4, and R6
- Co-ops: C6, C8, D0, D4, and R9
- 1-3 Family Dwellings A1, A2, A3, A4, A5, A7, A9, B1, B2, B3, B9, and C0

### Active Listings

Active listings reflect every unit that is currently marketed on the Perchwell database. Active listings do not include shadow inventory, which are units that have not yet come to market.

### Contracts Signed

Contract signed data includes all units that are currently under contract, publicly marketed on the Perchwell database. This data does not include units that are not publicly listed. The price points in the contract signed data does not necessarily reflect final sale price.

### Sources:

Data on all recorded sales closings is provided by the NYC Department of Finance’s Automated City Register Information System (ACRIS). Active and in-contract residential listing data, as well as bedroom type data for sales closings is provided by Perchwell.

Active and In Contract Listings: [Perchwell](#) provided all data for active listings and units in contract.

### Average Price and Average Price Per Square Foot (PPSF)

The average price per square foot is calculated by all average prices divided by average square footage.

### Median Price and Median PPSF

The median price per square foot is calculated by all median prices divided by median square footage. Median Price and Median PPSF represent the midpoint price, where half of the prices fall either above or below this value.

### Neighborhoods

All neighborhood regions and boundaries are defined by REBNY. Data on each neighborhood can be downloaded here: [go.rebny.com/Q42020AppendixData](https://go.rebny.com/Q42020AppendixData).

### Total Consideration

Total consideration refers to the total monetary sales volume for a given asset class or geographic area.

### Time Periods

Data for each quarter represent sales and prices for the full quarter period.

- Q1: January 1 - March 31
- Q2: April 1 - June 30
- Q3: July 1 - September 30
- Q4: October 1 - December 31
