

OUR MISSION

Helping patients get the medication they need to live healthy lives.

covermymeds®

ABOUT US

CoverMyMeds, part of McKesson's Prescription Technology Solutions, is a fast-growing healthcare technology company that has been recognized as a "[Best Place to Work](#)" by Glassdoor and a "[Best Company to Work For](#)" by FORTUNE.

Our solutions help patients get the medications they need to live healthy lives by seamlessly connecting providers, payers and pharmacists to improve medication access; thereby increasing speed to therapy and reducing prescription abandonment.

Founded: 2008

Office Locations: Columbus, Ohio and Highland Hills (Cleveland), Ohio

Employees: 1,500; 90% employee retention rate

Where We Do Business: All 50 United States and Puerto Rico

CORE VALUES

Be Selfless

We recruit and promote people who want to win as part of a great company. We check our egos at the door and win as a team.

Embrace Challenges

Achieving our mission requires us to do things that have never been done before. We embrace this, knowing there will not always be an easy answer, or someone to tell us what to do.

Be Yourself

Our work is serious, but we should never take ourselves too seriously.

Do The Right Thing

We treat people like adults and always behave with ethics, integrity and honesty, beyond question.

Results Matter

We care intensely about the achievement of our numbers, milestones and product excellence. No strategy, process, organization, team or person is sacred if we are not getting the job done.

CONNECT

MEDICATION ACCESS SOLUTIONS

Electronic Prior Authorization (ePA)

Electronically connecting pharmacies, providers and health plans to streamline the prior authorization process while helping to reduce prescription abandonment, and improve time to therapy and quality of care. Prior authorization requests submitted electronically can be completed faster than traditional, manual phone and fax methods. This helps relieve burden for every part of the healthcare network and reduce delays in patient care.

Specialty Patient Support

Automating hub services through an integrated, tech-driven platform that connects providers, pharmacists and payers and enables patients to access, afford and adhere to their therapy. Streamlined support throughout the patient journey helps reduce the time and effort required from all stakeholders to start specialty therapy and improves patient outcomes.

Prescription Decision Support

Connecting patients with their entire care team by offering real-time prescription benefit insights, price transparency and affordability options that help improve medication adherence while also reducing sticker shock. Prescription decision support insights help reduce medication access barriers, such as cost, by displaying accurate pricing information before the patient arrives at the pharmacy.

Patient Empowerment

Allowing patients to proactively participate in their care plan by enabling prescription price visibility, options to pay for their prescription outside of insurance and the ability to select a pharmacy based on convenience and price. Patients—including those who are underinsured or uninsured—can now make informed decisions on how to access their needed medication.

OUR PATIENT-CENTERED NETWORK

750,000 Providers
75% of EHRs Integrated

96% of Pharmacies

Payers Representing **94%**
of U.S. Prescription Volume

200+ Life Science Brands
