Subject Brief

ENDEAVOUR College of Natural Health

BIOD311

Clinical Diagnostic Techniques and Interprofessional Care

General information

Awards	Subject type	Study year	Study semester
Bachelor of Health Science (Naturopathy)	Core	Year 3	Semester 5

EFTSL: 0.125

Delivery mode: Livestream and Online

Co-requisites: Nil

Pre-requisites: BIOP221

Subject overview

This subject equips students with the skills to effectively apply clinical examination and assessment techniques in the differential diagnostic process. By introducing, both in-office and external, diagnostic, and functional assessment techniques, students will learn to develop accurate working diagnoses. Emphasis is placed on the correct interpretation of clinical data within the appropriate clinical context to ensure appropriate holistic case analysis. Additionally, the subject fosters the development of communication skills and interprofessional collaboration, essential for enhancing patient safety and the quality-of-care delivery in clinical practice.

Assessments

Week 5: Written Assignment

Week 12: Written Assignment
