Pre-requisites: NMDC121 Clinical Practicum I

Subject overview

Students will continue to develop and enhance their clinical skills from Clinical Practicum I. This includes client-centred case taking, nutritional health assessment, holistic nutritional diagnosis, nutritional treatment planning, monitoring, and evaluation for a diverse range of clients with acute and chronic conditions. Students will develop and demonstrate their advanced clinical skills through evidence-based research, professional development, and reflective practice activities and contribute to the clinic. Clinical nutrition students will continue to practise under the direct supervision of qualified practitioners in the Endeavour Wellness Clinics or approved external clinics.

Assessments: Attendance, Reflective Log, Case Report and Presentation
