Subject overview

This subject will develop students' knowledge of counselling skills and cultural competence relevant to complementary medicine health care. Students will explore the concepts of 'cultural competence and safety' and a holistic person-centred approach as essential for working with individuals in a complementary medicine, community-based setting, and within a broader healthcare system. This subject will increase awareness of Aboriginal, Torres Strait Islanders and Indigenous peoples' culturally sensitive histories and their contemporary ways of living, relevant to developing and providing appropriate healthcare services.

Assessments
