Subject Brief

ENDEAVOUR College of Natural Health

CMCM311

Chinese Clinical Medicine 2

General information

Awards	Subject type	Study year	Study Semester
Bachelor of Health Science (Chinese Medicine)	Core	Year 3	Semester 5
Bachelor of Health Science (Acupuncture Therapies)	Core	Year 3	Semester 5

EFTSL: 0.125

Delivery mode:

- Weeks 1-11: Livestream
- Week 12: On campus (Single day attendance; attendance is mandatory)

Co-requisites: BIOP311

Pre-requisites: BIOP221, CMCM221, CMCP221

Subject overview

The Chinese Clinical Medicine stream employs a case-based learning model to enhance students' clinical reasoning and application of Chinese medicine principles, including pattern and disease differentiation (respectively, bian zheng and bian bing), and prescribing theories. Students will integrate various diagnostic frameworks and therapies, combining Chinese and biomedical approaches for managing internal medicine conditions within an inter-professional healthcare model. The subject covers respiratory, cardiac, haematological, neurological, psychological, psychiatric, addiction, and sensory conditions. Students will evaluate health research, apply evidence-based practices including acupuncture, Chinese remedial massage (tui na), herbal medicines, dietetics, and lifestyle therapies. They will also gain skills in auricular, scalp, and advanced acupuncture techniques, and developing deepening advocacy skills for patient care.

Assessments

- Week 7: Written Assignment
- Week 13: Online Exam
