Subject overview

This subject develops students' ability to apply Chinese medicine pattern differentiation in the management of a range of health conditions using Chinese medicine manual therapies. Students will develop knowledge and skill in applying differential diagnosis, treatment principles, treatment planning, evidence basis, and treatment provision to support patients across the stages of their life, and in the management of orthopaedic and common internal medicine conditions.

Assessments

- Week 6: Practical Assessment
- Week 12: Written Assignment
- Week 13: Online Exam
