Subject Brief

ENDEAVOUR College of Natural Health

CMHB421

Contemporary Chinese Herbal Prescribing

General information

Awards	Subject type	Study year	Study Semester
Bachelor of Health Science (Chinese Medicine)	Core	Year 4	Semester 8

EFTSL: 0.125

Delivery mode: Livestream

Co-requisites: Nil

Pre-requisites: CMCP411, CMHB411

Subject overview

This subject utilises a case-based learning model to consolidate students' clinical reasoning, and ability to apply individualised Chinese herbal medicine in the management of a range of health conditions. Students will develop an integrative knowledge of Chinese and biomedical medicine approaches to pathogenesis, diagnosis, and condition management relevant to the application of Chinese herbal substances in range of administration methods, and extend their capacity to practice within an inter-professional healthcare model. Students will explore a range of health research findings relating to clinical conditions and their treatment, promoting an evidence based application of Chinese herbal and dietary medicine practice.

Assessments

- Week 8: Written Assignment
- Week 13: Online Exam
