1. The Union Cycliste Internationale (UCI in abbreviation) is the association of national cycling federations.
2. The UCI is a non-governmental international association with a non-profit-making purpose of international interest, having legal personality pursuant to Articles 60 ff. of the Swiss Civil Code.
3. The registered office of the UCI is in Switzerland, at the place fixed by the Management Committee. Only the Congress has the right to transfer the registered office to another country.

Article 2***Objectives***

The objectives of the UCI are:

- a) to direct, develop, regulate, control and discipline cycling under all forms worldwide;
- b) to promote cycling in all the countries of the world and at all levels;
- c) to organize, for all cycling sport disciplines, world championships of which it is the sole holder and owner;
- d) to draw up regulations and provisions and ensure their enforcement;
- e) to encourage friendship between all members of the cycling world;
- f) to promote sportsmanship, integrity, ethics and fair play with a view to preventing all methods or practices such as corruption or doping, which might jeopardize the integrity of competitions, riders, officials and members or give rise to abuse of cycling;
- g) to promote gender-parity and equity in all aspects of cycling;
- h) to promote Para-cycling;
- i) to advocate for the safety and rights of cyclists ;
- j) to represent the sport of cycling and defend its interests before the International Olympic Committee, the International Paralympic Committee and all national and international authorities;
- k) to cooperate with the International Olympic Committee, the International Paralympic Committee in particular as regards the participation of cyclists in the Olympic Games;
- l) to direct, develop, regulate, control and discipline any and all virtual/electronic cycling activities and competitions under all forms worldwide and to organise world championships of which it is the sole holder and owner.
- m) to direct, develop, regulate, control and discipline any and all cycling activities and competitions on snow and ice under all forms worldwide and to organise world championships of which it is the sole holder and owner.

The UCI will carry out its activities in compliance with the principles of:

- a) equality between all the members and all the athletes, licence-holders and officials, without racial, political, religious, gender-related or other discrimination;
- b) non-interference in the internal affairs of affiliated federations;
- c) compliance with the Olympic Charter in everything to do with the participation of cyclists in the Olympic Games;
- d) the non-profit-making purpose: the financial resources shall be used only to pursue the purposes set forth in this Constitution. UCI members have no rights thereto.

Article 4**Members**

The members of the UCI shall be the national federations accepted by the Congress as being the representative organization for the sport of cycling in general in the country of that national federation.

Article 5**National Federations**

1. Every member of the UCI shall hereinafter be referred to as a "national federation".
2. Only one national federation shall be admitted to membership for any country.
3. Membership may be granted to a national federation which is responsible for the organisation and implementation of cycling-related matters in the territory of a country, which:
 - a) is recognised as an independent state; or
 - b) has a National Olympic Committee.

This provision shall not affect the status of existing national federations.

4. On a motion of the Management Committee and in accordance with such procedures as the Congress shall determine, the Congress may exceptionally grant provisional exemptions for federations of territories which do not fulfil the requirements under Article 5.3 for a period not exceeding two years.

Article 6**Associate members**

1. The federation of a territory which does not fulfil the requirements of Article 5.3 and which belongs to a country with a national federation may be granted associate membership, subject to the agreement of such national federation.
2. The rights and obligations of associate members shall be exclusively set out in a joint agreement between the associate member, the national federation concerned, the continental confederation(s) concerned and the UCI. In any case, the associate member shall have the right to:
 - a) attend the UCI's Congress;
 - b) take part in competitions organised by the continental confederation where its capital lies;
 - c) take part in UCI's assistance, development and solidarity programmes.

Rights

1. The national federations have the following rights :
 - a) to take part in the Congress;
 - b) to draw up proposals for inclusion in the agenda of the Congress;
 - c) to exercise their voting rights through the agency of voting delegates elected among each continental confederation;
 - d) to nominate candidates for elections at the UCI and continental confederations;
 - e) to take part in competitions organized by the UCI;
 - f) to take part in UCI's assistance, development and solidarity programmes;
 - g) to exercise all other rights arising from this Constitution and other regulations;
 - h) to receive several benefits from the UCI and/or the continental confederations.
2. The exercise of these rights is subject to other provisions in this Constitution and the applicable regulations.

Obligations

3. As members, the national federations shall comply with the Constitution and Regulations of the UCI, as well as with all decisions taken in accordance therewith. Likewise, they shall have the Constitution, Regulations and decisions of the UCI complied with by all persons concerned.
4. The Regulations of the UCI shall be incorporated in the corresponding regulations of the national federations.
5. The constitution and regulations of the national federations shall not run counter to the Constitution and Regulations of the UCI. In case of divergence, only the Constitution and Regulations of the UCI shall apply. The constitution and the regulations of the national federations must contain an express clause that in case of divergence with the Constitution and Regulations of the UCI, only the latter shall apply.
6. The national federations must manage their internal affairs with total independence and ensure that no third party interferes in their operations. They must remain autonomous and resist all political, religious and financial pressure which may infringe their commitment to abide by the Constitution of the UCI. Any external form of interference or attempt to interfere must be reported to the UCI.

[Comment: This provision does not prevent, for instance, the government from controlling the appropriate use of allowances granted to a national federation but under no circumstances should the government interfere with the strategy of the national federation, such as the allocation of funds for dedicated disciplines or competitions, or with the operations of the national federation, including but not limited to aspects such as national team selections or the organisation of cycling competitions or designation of staff.]

7. The constitution and regulations of the national federations must make provision for elections that ensure complete independence of the national federation vis-à-vis third parties, that elections are held at least every four years and requiring all candidates to be licence-holders of the same national federation since at least one year prior to such election.

In particular, national federations shall not allow governments and other public authorities to appoint members of the governing bodies of a national federation.

In addition, national federations shall ensure that all rules applicable to their electoral proceedings are included in their own constitution and regulations.

[Comment: This provision does not prevent a national federation from deciding, for instance, that within its Management Committee a limited number of positions may be taken by government representatives without voting rights, while the members with voting rights must be appointed exclusively by the general assembly amongst candidates that are nominated exclusively by the members of the national federation and according to the national federation's own constitution and regulations. Nor does it prevent an electoral system whereby the members of the national federation elect the members of the executive committee who then, amongst themselves, designate the President or other specific roles.]

8. The national federations are obliged to include the provisions contained in paragraphs 6 and 7 in their constitution.
9. Any national federation's decisions, elections and bodies that are not in compliance with paragraphs 6 and 7 shall not be recognized by the UCI. If the situation is not regularized within the time limit granted by the UCI and in a manner that is compliant with the aforementioned provisions, the national federation may be suspended.
10. The national federations shall pay their annual membership contribution and fulfil all other financial obligations towards the UCI as further provided in Article 8.
11. The national federations shall ensure appropriate representation of each gender on their executive committee.
12. The national federations shall ensure that all required persons, including all persons in an elected role or candidates for an election, are bound by the UCI Regulations by holding a licence issued in accordance with the procedures laid down in the UCI Regulations.
13. The national federations shall make sure the structure of their general assembly allows adequate representation of all stakeholders of cycling within their country.

[Comment: this provision does not restrict the different forms of representation within the general assembly of a national federation which may include individual members, clubs or regional associations. However, the representation within the general assembly shall ensure that it is adapted to the specificities of the national federation such as the number of licence-holders, clubs and regional associations. In particular, the structure of the general assembly shall not indirectly or de facto exclude stakeholders without reason.]

1. National federations shall pay their annual membership contribution as well as all other financial obligations to the UCI as determined by the UCI Congress or by the UCI Management Committee and stipulated in the UCI Regulations or in the "UCI Financial Obligations", or on the basis of a contractual agreement with the UCI or the UCI World Cycling Centre, within the applicable time limit. Financial obligations within the meaning of the present article include amounts owed to the UCI, the UCI World Cycling Centre or to a third party to which a regulatory task of the UCI has been delegated.
2. In case of default for payment of any financial obligation according to paragraph 1 of the present article and the terms hereafter, the following consequences shall apply automatically against the national federation concerned:
 - a) Inadmissibility of any nomination of candidates for election with the UCI or a continental confederation where nomination by one or several national federations is a requirement for the eligibility of the candidate in question. This consequence is assessed on the closing date for the submission of candidatures, i.e. to the continental confederation for candidates for the presidency and/or the executive committee of the continental confederation as well as for the roles of voting delegate at the UCI Congress (including substitutes) and/or member of the UCI Management Committee and to the UCI for candidates for the role of UCI President;
 - b) Inadmissibility of any bid for the organisation of UCI World Championships from the country of the national federation. This consequence is assessed at the time of the UCI Management Committee meeting at which the UCI World Championships in question are awarded;
 - c) Inadmissibility of any application for funding or other contributions through the UCI Solidarity program. This consequence is assessed at the time of the UCI Management Committee meeting at which the UCI Solidarity contributions are granted.

With regard to point a. above, only the amounts due (as per the invoice due date) on or before 1 November of the year preceding the elections for the UCI President and UCI Management Committee are taken into account. With regard to points b. and c. above, only the amounts due (as per the invoice due date) on the closing date for the submission candidatures (point b.) and applications for contributions (point c.) are taken into account.

Only amounts that have been duly invoiced by the UCI, the UCI World Cycling Centre or the third party to which a regulatory task of the UCI has been delegated are taken into account for the application of the present article. Furthermore, in the event of the signature of a payment plan for the settlement of unpaid financial obligations, any breach of the said agreement at the time of assessment of the consequences under points a., b. or c. above shall be considered as a default in the payment of financial obligations and taken into account for the application of the aforementioned consequences.

3. The assessment of whether the nominations for candidates for elections are admissible (par. 2.a.) shall be carried by the competent bodies according to the relevant provisions of the UCI Constitution and, if applicable, the Continental Confederations' Constitutions. As regards the admissibility of bids for the UCI World Championships (par. 2.b.) and applications for contributions from the UCI Solidarity Program (par. 2.c.), assessment is made by the UCI.
4. In addition to the consequences set out in paragraph 2 of the present article, the UCI Management Committee may add a proposal to suspend the national federation on the agenda for the next UCI Congress or provisionally suspend the national federation according to Article 20.1 for any failure to meet the financial obligations set out in paragraph 1 of the present article. The UCI may agree on a payment plan with a national federation which fails to fulfil its financial obligations. In case of failure to comply with an agreed payment plan, the national federation may be suspended.

Article 9

Application for membership

1. The application for membership shall be signed by the statutory representatives of the applicant national federation and sent to the registered office of the UCI.
2. The application must be accompanied by a file containing the following elements:
 - a) a formal statement that the applicant national federation, on the condition of its admission, shall accept, apply and comply with UCI's Constitution and Regulations, and adapt its own constitution and regulations accordingly;
 - b) the text of the constitution and all regulations of the applicant national federation;
 - c) a detailed report on the structures and activities in the cycling sport of the country concerned;
 - d) a list of unions or associations to which the applicant national federation is already affiliated;
 - e) a description of the members of the Management Committee or equivalent body;
 - f) the official address for correspondence;
 - g) the identity of persons empowered to sign correspondence.
3. Under penalty of non-admissibility, the application for membership and its annexes shall be drawn up in English or in French.
4. The national federations shall inform the UCI about every amendment in the data referred to in points b, d, e, f, and g of paragraph 2 above as soon as possible.

Applications for membership shall be reviewed by the Management Committee. Before submitting them to the Congress, the Management Committee may request additional information and ask the applicant national federation to alter its structures or regulations to bring them in line with the principles and Regulations of the UCI.

1. If the application for membership is judged complete and in conformity with the requirements, the Management Committee shall inform the national federations and place the voting on admission in the agenda of the next Congress, or the Congress after that if the first Congress takes place less than two months after the national federations were duly notified of the candidacy.
2. In the latter case, the Management Committee may grant provisional membership in anticipation of the voting at the Congress. Provisional membership does not entitle the applicant national federation to take part in the corporate functions of the UCI, but only in sport activities, provided the other conditions are met.

1. The Congress shall decide in its sole discretion on the admission before voting on any other item of the agenda, with the exception of a vote on the expulsion of a national federation.
2. An applicant national federation may make a presentation before the Congress. Its delegates must leave the room when the application is being reviewed and the vote taken.
3. If the application is accepted, the delegates of the new member shall be authorized to take part in the deliberations of the Congress immediately.

1. The members of the UCI shall extend reciprocal recognition as federations regulating cycling in their respective countries to the exclusion of all others.
2. Each national federation shall recognize and execute the decisions taken by another national federation.

Except for other remedies, the Management Committee may decide upon request of any interested person, that a decision taken in application of a national rule shall have effect in the country of the national federation concerned only.
3. Each national federation shall spare no effort to enable the members of other national federations to take part in international cycling activities organized on its territory.

4. Except in the case of prior consent of the Management Committee, national federations and their members shall take part only in cycling activities organized by one of them or by the UCI or a continental confederation. Moreover, they shall not take part in activities organized by a suspended national federation, except as provided in Article 20.4, in fine.

Article 14***Prohibition to join competing association***

A national federation which joins a competing union or association, or a body declared as such by the Management Committee or the Congress, shall be automatically suspended if it refuses to relinquish this other membership within the month of the notice to that effect being served by the Management Committee.

Article 15***Failure to fulfil obligations***

1. Failure of a national federation to fulfil any of its obligations pursuant to the Constitution and Regulations of the UCI or towards the World Cycling Centre shall render said national federation liable to a fine of CHF 300.00 to 10,000.00 to be decided by the Management Committee. The Management Committee may also delegate this power.
2. In the event of serious or persistent breach, the national federation concerned may moreover be suspended.

Article 16***Membership contribution***

Each national federation shall pay an annual membership contribution, the amount of which shall be fixed by the Congress on a proposal of the Management Committee.

Article 17***Payment of first contribution***

The first contribution is due for the calendar year during which the national federation is admitted by the Congress.

Nevertheless, an applicant national federation may request that its membership takes effect on 1 January after admission by the Congress. In such a case, Article 12.3 shall not apply.

Article 18***Deadline for payment***

The contributions shall be paid to the UCI on or before the 31st of March of the year for which it is due.

Article 19***Suspension in case of failure to pay***

The Management Committee shall place on the agenda of the next Congress the suspension of a member which has failed to pay its contribution or any other financial obligation set out in Article 8 paragraph 1.

1. The Congress is competent for suspending a national federation. The Management Committee may, however, suspend a national federation that seriously violates its obligations as member with immediate effect. The suspension shall last until the next Congress, unless the Management Committee has lifted it in the meantime.
2. A suspension shall be confirmed at the next Congress by a two-third majority of the voting delegates present. If it is not confirmed, the suspension is automatically lifted.
3. A national federation may be suspended in the following circumstances:
 - a) when the national federation ceases to assume the real character of a national cycling federation in its country;
 - b) when the national federation discredits the international reputation of cycling sports;
 - c) when the national federation repeatedly fails to fulfil its financial obligations towards the UCI;
 - d) when the national federation fails to comply with its obligations under Article 7;
 - e) when the national federation seriously violates the Constitution, regulations or decisions of the UCI;
 - f) when the national federation fails to comply with its obligations under the World Anti-doping Agency (WADA) Code;
 - g) when the national federation makes a decision, issues a policy or acts in a manner that is discriminatory against a country, a private person or group of people on account of race, skin colour, ethnic, national or social origin, gender disability, language, religion, political opinion or any other opinion, wealth, birth or any other status, sexual orientation or any other reason.
4. The suspension of a national federation entails the following measures in particular:
 - a) non-participation in the Congress of the UCI;
 - b) inadmissibility of the nominations of candidates for elections;
 - c) suspension of the members of the national federation in committees and commissions of the UCI;
 - d) deletion or non-registration of its races on the UCI International Calendar;
 - e) exclusion of its cyclists from events of the UCI International Calendar;
 - f) refusal or withdrawal of the organization of UCI World Championships and/or UCI World Cup events;
 - g) prohibition for other national federations to entertain sporting contact with the suspended national federation.

In its discretion and taking into account all the circumstances of the case, in particular the legitimate interests of the riders and of third parties, the Management Committee may nonetheless decide that certain measures will not be applied, will apply to certain events only, or for a defined period.

5. A decision of suspension can be imposed for an indefinite period of time and the lifting of the suspension may be made subject to the fulfilment of certain requirements to be proposed by the Management Committee and approved by the Congress. The Management Committee is competent to determine that the conditions for lifting the suspension have been met and confirm the reinstatement of the national federation's rights. A suspension may also be imposed for a fixed period of time in consideration of the circumstances of the case.
6. As part of a decision of suspension, the Congress, upon proposal by the Management Committee, may appoint a normalisation committee to act in replacement of members of the national federation's executive committee in situations where the executive body fails to adhere to practices of good governance, transparency, financial accountability and stability, or puts at risk or in disrepute the organisation and development of cycling in its country or in cases where decisions of the Management Committee or Congress aimed at addressing the situation with the national federation are not complied with. The mandate of a normalisation committee may include the following:
 - a) management of daily affairs of the national federation;
 - b) establishment of a budget and appropriate financial measures;
 - c) review and amendment of the constitution and the rules of the national federation to ensure compliance with the UCI Constitution and UCI Regulations before duly submitting them for approval to the national federation's general assembly;
 - d) dealing with the registration of riders for participation in UCI World Championships and UCI World Cup events if authorised by the Management Committee under Article 20.4 above;
 - e) organisation, monitoring and/or conduct of congresses and elections; and
 - f) any other action necessary to ensure compliance with the UCI Constitution and UCI Regulations and carrying out the UCI's requirements for lifting the suspension on the national federation.

The above tasks may also be assigned directly to a national body such as the National Olympic Committee, which shall act in accordance with paragraphs 6 to 8 of the present article.

7. A normalisation committee may be appointed as an independent measure instead of the suspension by the Management Committee. The decision of the Management Committee shall be subject to confirmation by the Congress.
8. A normalisation committee shall be composed of an adequate number of individuals to be identified and appointed by the Management Committee upon consultation, if appropriate, with the National Olympic Committee and/or continental confederation of the national federation concerned. The normalisation committee will act as a reform committee and may appoint a separate electoral committee for any elections that need to be carried out. The term of appointment for the normalisation committee will expire no later than 6 months after appointment by the Management Committee but may be extended if the normalisation committee has not been able to carry out its tasks for reasons not within its control.

9. In place of or in addition to any suspension of a national federation or the appointment of a normalisation committee, the Congress – and the Management Committee in urgent cases – has the right to impose any of the following sanctions:
 - a) refer the national federation to the UCI Ethics Commission;
 - b) set specific measures, terms or conditions to be met or steps to be undertaken to avoid a suspension;
 - c) issue a caution or a warning;
 - d) impose a fine;
 - e) withhold contributions of any kind;
 - f) withdraw or declare inadmissible any application for support through the UCI Solidarity program;
 - g) withdraw or declare inadmissible any bid for UCI events or activities to be held in the country of the national federation;
 - h) exclude riders, staff members and/or officials from any UCI events or activities;
 - i) suspend any members of the national federation from sitting on a UCI commission or the Management Committee;
 - j) impose any other sanctions considered appropriate.
10. In cases of act of terrorism, riots, civil unrest, strike, nuclear or chemical contamination, epidemic and other similar circumstance as well as in the event of involvement of a national federation's government in a war or other similar situations, the Congress – and the Management Committee in urgent cases – shall have the power to take appropriate measures aiming at preserving the safe, peaceful and regular conduct of cycling events. The measures may include the suspension or exclusion of a national federation, other sanctions or other appropriate protective measures.

Article 21

Exclusion

1. A national federation may be excluded by the Congress for the same causes as for suspensions according to Article 20.3 above.
2. The decision to exclude a national federation requires a majority of two thirds of the votes cast.
3. The Congress shall decide on the exclusion before voting on any other point on the agenda.

Article 22

Right to be heard

The national federation shall be given the opportunity to be heard, orally or in writing, before a sanction is imposed on it.

A national federation wishing to leave the UCI shall send a letter of resignation by registered post with acknowledgement of receipt to the registered office of the UCI. Notice of resignation must reach the administration of the UCI no later than six months before the end of the calendar year.

1. Under no circumstance will a national federation be entitled to reimbursement of its membership contributions.
2. The national federations shall claim no damages for decisions taken by the authorities of the UCI concerning them, except in case of abuse of law or serious offence.

Article 25**Definition**

1. National federations from the same continent shall be grouped together in a continental confederation, an administrative unit and integral part of the UCI.
2. There shall be 5 continental confederations:
 - Africa
 - America
 - Asia
 - Europe
 - Oceania.
3. Each national federation shall be a member of the confederation of the continent in which its national capital lies. Exceptions may be decided by the Congress with the majority of the votes cast upon a request made to the Management Committee by the national federation and both continental confederations concerned.
4. Each UCI associate member shall be registered as such with the continental confederation of the continent in which its capital lies. The respective rights and obligations of the associate member and the continental confederation shall be as set out in the joint agreement contemplated in Article 6.2.

Article 26**Role, rights and obligations**

1. All continental confederations shall promote the development of cycling in their respective continents and shall inform the UCI of problems concerning cycling specific to their continent. They shall act as relays for the UCI and facilitate the resolution of issues arising within or amongst the national federations in their respective continents.
2. They shall submit to the Management Committee of the UCI proposals for activities at the continental level, and in particular as regards:
 - a) drawing up the continental calendar of cycling events;
 - b) organizing and planning the training courses for commissaires and technicians;
 - c) organizing continental championships or regional games.
3. Continental confederations shall draw up the regulations concerning the organization of continental cycling activities.
4. Under the supervision of the Management Committee and subject to such terms and conditions as the Management Committee may lay down each continental confederation may set up forms of cooperation with and between countries in its continent where there is no national federation or associate member of the UCI.

1. Each continental confederation shall be organized administratively in such a way as to ensure the proper execution of its tasks as well as the participation of the national federations in the operation of the UCI. It shall furthermore possess its own legal personality in the country where its headquarters are located, in a legally recognised form, in accordance with the applicable local laws.
2. For that purpose, the continental confederations shall establish a continental secretariat and adopt a Constitution and rules of procedure in strict conformity with the Constitution and Regulations of the UCI.

The Constitution and/or the rules of procedure shall provide for, in particular:

- a) at least one general meeting of the continental confederation every two years;
- b) an executive committee and a president elected democratically every four years by the general meeting;
- c) rules of eligibility for all elected positions (president, executive committee, UCI Management Committee candidates, voting delegates) which include at least the eligibility requirements laid down in the UCI Constitution, including the obligation to hold a licence and being nominated by the national federation of their nationality, or of their residence, or of a certain number of other national federations. Continental confederations may nonetheless determine that a nomination from a national federation is not a requirement for the admissibility of the incumbent president's candidature. In accordance with Article 8, any nomination from a national federation which has failed to meet its financial obligation shall be deemed inadmissible;
- d) a representation of 25% of each gender within the executive committee, rounded up or down to the closest absolute number;
- e) the method of designation of voting delegates to the UCI Congress in accordance with Article 39;
- f) an electoral process handled by a dedicated body, composed of three members appointed by the UCI Ethics Commission. The members shall be independent from the continental confederation and at least two out of the three members shall be from the relevant continent. This body is responsible for conducting the electoral process, receiving and processing candidacies (including verifying the eligibility of the candidates), the regularity of the elections and serves as a first instance decision-making body in case of a complaint related thereto; any decision rendered by the said body may ultimately be appealed before the Court of Arbitration for Sport in Lausanne, Switzerland;
- g) a limitation on the number of terms that the president may serve. This number may not exceed four (4) terms of four (4) years each;
- h) a limitation setting the maximum age of the president at 74 years at the time of election.

- i) The election of the president and the executive committee shall take place within a seven-month period preceding 1 April of the year in which the UCI Management Committee is elected. The confederations will inform the UCI of the identity of the president and of the executive committee in the week of their election.
3. The Management Committee of the UCI can establish standard rules of procedure for the continental confederations.
4. The UCI grants an annual contribution to the operating costs of the continental confederations.
5. The continental confederations shall annually provide the UCI with governance and financial information, including the financial accounts certified by an independent body, in one of the UCI official languages. The Management Committee of the UCI can establish internal guidelines detailing the level of information to be provided. Failure to respect this obligation or to comply with the relevant guidelines may result in the suspension of all or part of the project funding and other contributions to the continental confederation.

Article 28

Non-conformity with UCI Constitution and Regulations

1. The constitution and regulations of the continental confederations shall not run counter to the Constitution and Regulations of the UCI. In case of divergence, only the Constitution and Regulations of the UCI shall apply. The constitution and the regulations of the continental confederations must contain an express clause that in case of divergence with the Constitution and Regulations of the UCI, only the latter shall apply.
2. Regulations and decisions of the continental confederations may be cancelled by the Management Committee of the UCI, either ex officio or at the request of a national federation, in case of non-conformity with the Constitution and Regulations of the UCI.

 - c) the annual accounts of the previous year;
 - d) the budget for the following year.

1. Notices convening the Congress shall be sent to the national federations at least thirty days before the date of the Congress. The continental confederations will be sent a copy. The notices shall indicate the date, the time, and the place of the Congress as well as the agenda. Should the case arise, they will be accompanied by the full text of any proposals to amend the Constitution and the list of the candidates for the presidency and the Management Committee.
2. Notices convening the statutory Congress shall moreover be accompanied by:
 - a) the report of the Management Committee;
 - b) the accounts and the budget;
 - c) the auditor's report.

1. The agenda of the Congress shall be drawn up by the Management Committee.
2. A national federation wishing to include one or more items in the agenda of the Congress, or to put a question to the Management Committee, shall submit its draft proposals stating the reasons on which they are based or the text of its question, in English or in French, to the registered office of the UCI at least sixty days before the date of the Congress.
3. With the exception of amendments to the Constitution, any question not on the agenda of the Congress can be added to be discussed and voted on by the Congress at the request of fifteen national federations.
4. Except in cases where the preceding point applies, no vote shall be taken on any question which is not on the agenda.

1. Each member of the UCI and the applicant national federations whose membership is on the agenda may be represented at the Congress by a delegation of not more than three persons.
2. Delegates must be at least 18 years old, a member of their national federation, and duly appointed by the appropriate body of said national federation.
3. Members of the UCI's staff may not be appointed as delegates to the Congress.
