## ACCOMMODATION

All expenses with accommodation, meals, and transportation for the 2024 UCI Para-Cycling Track World Championship should be covered by the participants.

Rio de Janeiro is a tourist city and has a wide range of hotels, but it is also a city with heavy traffic jams, therefore, choosing a hotel in an unfavorable location can be inconvenient for the teams and athletes.

The Organizing Committee appointed the company *TBA Sports Management* to manage the accommodation, meals, and transportation services for the event.

Reservations must be requested using the accommodation and meals pre-booking form attached to this document.

**Room rates for hotels include:**

- Free Wi-Fi in public areas and /or in the rooms.
- Daily breakfast buffet.
- Optional lunch and dinner packages at selected hotels suited to the competition schedule.
- On-site management team.
- Airport/hotel/airport transfer service, for teams that adhere to the hosting services offered by the OC.
- Full transport service for bicycles and equipment between the airport and hotel on arrival and departure days for teams that subscribe to the hosting services offered by the OC.

**TRANSPORTATION**

Traditionally, in cycling competitions, teams hire their vehicles from regular car rental companies (i.e. Europcar, AVIS, HERTZ, etc.), however, in Brazil, unfortunately, this service is not possible.

Brazilian laws only allow drivers who have a special professional driver's license to drive vehicles with more than 9 seats, so regular rental companies do not offer vehicles with more than 7 seats in their portfolio.

The Organizing Committee will offer, free of charge, transfer services (airport/hotel/airport) and transportation of sports equipment for teams that contract accommodation services directly with the OC.

Transport reservations **must** be requested through a specific transportation form, which will be made available to all teams by email.

**IMPORTANT:** Transport services will not be offered between the hotels and the velodrome due to the short distance between the hotels and the competition venue.

**HIRING OF TRANSFER AND TRANSPORT OF SPORTS EQUIPMENT**

For teams that **do not contract** accommodation in one of the official hotels and want to contract transfer services (airport/hotel/airport) and equipment transport, there is an option to hire those services separately, according to the service table below:

- **SHARED TRANSPORT SERVICE**

Van and minibus

Fee for over 30 items: € 1.800,00

**Note:** The fees above are considered for two trips, one upon arrival and another upon departure from the team.

Bikes and equipment will be transported according to vehicle capacity and may arrive at the hotel/velodrome after the team. Every four hours the truck will make the trip, even if it has not completed the capacity. The staff at the airport will inform the team of the equipment's departure time and estimated arrival time at the hotel/velodrome, with possible delays due to traffic.
