8.1.022 Check of evaluation sheet

Is an electronic judging system used in a competition the rider/coach is required to check, correct and sign the evaluation sheet he received.

From 1 hour before start of the corresponding discipline it is not allowed to change the evaluation sheet anymore.

Possible disadvantages due to mistakes on the evaluation sheet are in the responsibility of the rider.

(text modified on 01.01.16)

8.1.023 Evaluation of the results

The total points are the result of the difficulty points and the respective tactical points.

The total devaluation is being calculated from the devaluation of difficulty and the devaluation of execution. The total devaluation subtracted from the total points is the result.

Any devaluation of difficulty for tactical figures has to be calculated from the point value of the figure including the attempted tactical points.

The final result is being calculated by the total of the single results from the commissaires groups, divided by the number of commissaires groups and has to be rounded to two digits after the point.

If two or more riders end up with the same final result, the lower devaluation of execution will decide about the ranking. In the case it is the same, the riders will receive the same place in the ranking.

The final result of each competition has to be published as soon as possible by the Chief Commissaire or organiser.

No results below zero will be published. Only the rankings, based on the subtractions, will be published.

(text modified on 01.01.16; 01.01.18)

8.1.024 Release of evaluation sheets

After finishing a discipline, the evaluation sheets or electronic judging documents have to be submitted to the corresponding person. The evaluation sheets have to be treated confidentially and may only be submitted to the concerning head of delegation, rider or coach.

8.2.014 Execution of the figure
All figures have to be executed within the competition surface and in accordance with chapter II specific rules, the name of the figure and chapter III explanations of the figures.

(text modified on 01.01.16)

8.2.015 Body posture

During the execution of the figures a correct body posture is required in the sense of sportmenlike artistic cycling which may not be changed during the whole execution of a figure. Exceptions are the figures where a changing of the body posture is necessary.

(text modified on 01.01.16)

8.2.016 Free-hand (frh.)

If free-hand (frh.) is written in the name of a figure all riders have to ride the entire way of stretch free-hand.

A way of stretch is considered to be a freehand distance if all riders have no contact with their hands to the handlebar, the bicycle or another rider, unless a grip connection is prescribed in the explanations of figures.

Arms which are not connected by a grip connection have to be stretched, horizontally, sideways by an angle of 90° to 110° towards the body (see drawing). (**ACT4**: with exception of door-figures, surrounding and compass).

(text modified on 01.01.16, 01.01.23)

8.2.017 Position of the arms

Figures which do not have the term “frh.” in the name of the figure, riders have to be connected with one hand to a rider with a grip connection. The other hand is connected to the handlebar (or frh.). The position of the arms has to be identical.

When riders are not connected to a partner and are connected to the handlebar with a hand, the other hand/arm has to be stretched sideways. Possible deviations are described in the explanations of figures.

(text modified on 01.01.16)

8.2.018 Stretching of arms and legs

If in the specific rules or in the explanations of figures is mentioned:

- “arm” or “arms”, it refers to the elbow, wrist and finger.
- “leg” or “legs”, it refers to the knee and ankle.

(text modified on 01.01.16)

8.2.019 Both wheels on floor

Except figures with the text “raiser” all figures have to be performed with both wheels on the floor during the total way of stretch of the figure.

Exceptions are described in the explanations of figures.

(text modified on 01.01.16)

8.2.020

Raiser

If “raiser” is written in the name of a figure, the total way of stretch of the figure has to be performed in the described raiser-position.

Only the rear wheel is in contact with the floor.

(text modified on 01.01.16)

8.2.021

Forward

All figures have to be performed in forward direction, if they are not marked in the name of the figure as backward. Exceptions are described in the explanations of figures.

At all figures with both wheels on the floor, turns, squats and jumps forward is determined by the bicycle. At all raiser figures the direction of the riders' face is decisive for the forward direction.

(text modified on 01.01.16)

8.2.022

Backward (bw.)

When figures are marked in the name of the figure with “backward” they have to be performed during the total way of stretch of the figure in the backward direction. Exceptions are described in the explanations of figures.

At all figures with both wheels on the floor, turns, squats and jumps the backward motion is determined by the movement of the rolling bicycle. At all raiser figures the direction against the riders' face is decisive for the backward direction.

(text modified on 01.01.16)

Complement for single and pair artistic cycling

Figures with straight line

1. Bendstands and backstand: Straight line from head over trunk and free leg. The foot of the free leg has to be at least on the same level as the foot of the supporting leg.
2. Knee on saddle: Straight line from head over trunk and free leg.
3. Waterscale: Straight line of trunk and legs.

(text modified on 01.01.16; 01.01.20)

8.2.024

Saddle handlebarstands, handlebarstands and saddlestands

These figures have to be performed in an upright, free-hand position, with sideways stretched arms and hands.

(text modified on 01.01.16)

8.2.025

L-shape hold, scales and straddles

1. L-shape hold has to be performed with closed and horizontally stretched legs.
2. Scales have to be performed with closed and horizontally stretched legs. The legs and the upper part of the body have to build a straight line.

3. At straddles the stretched legs have to be in a horizontally position to the floor or at right angle to the bicycle. The opening angle of the straddle has to be at least 70°. **Exceptions: No 70 degrees required with free support balance legs spread.**

(text modified on 01.01.16; 01.01.20; 01.01.25)

All these figures have to be performed without bracing, pushing off and leaning onto the handlebars, frame or saddle with legs or feet.

(text modified on 01.01.16)

8.2.027 Stillstands and handstand bicycle lying down

These figures have to be performed at least 3 seconds.

(text modified on 01.01.16)

8.2.028 Passages (P.)

All passages can be performed in any way, without touching the floor and without any other assistance. The figure has to be shown from the starting position to the endposition without taking another figure position.

If the described endposition is a raiser-position, the following figure must be shown in the same kind of raiser.

The start and the end of the passage has to be shown according the description of the start- and endposition in the explanations of figures.

Pair artistic cycling: passages on two bicycles must be performed in grip connection (except the passages backhang raiser headtube reverse / standraiser).

(text modified on 01.01.16)

8.2.029 Counterwise

If the term “counterwise” appears in the text this means the same position is possible with the opposite foot or leg, with opposite pedal and/or opposite rear- or frontpin.

Complement for pair artistic cycling

8.2.030 Stands and shoulderseats on one bicycle

All the pin-, saddle handlebar-, handlebar-, saddle-, shoulderstands and shoulderseats must be performed with horizontally, sideways, stretched arms (except ring-grip), without support from the partner and in an upright body posture.

For the figure Saddle handlebarstand/Saddle handlebarstand, it is not required to have sideways stretched arms for one rider. During this figure, it is allowed to touch or hold the partner.

For the figure Raiser regular seat/Stand on pins, it is not required to have sideways stretched arms for the position Stand on pins. It is allowed to touch or hold the partner which is in the raiser-position.

(text modified on 01.01.16)

8.2.031 Headstands, shoulderstands and handstands on one bicycle

Figures with these positions have to be performed without support. It is not allowed to touch or hold the partner during the execution of these figures.

(text modified on 01.01.16)

- 8.2.032** Simultaneous execution of figures
All the figures on two bicycles have to be performed simultaneously.

(text modified on 01.01.16)

- 8.2.033** Figures performed “separate”

Other grip connections are not allowed. Exceptions are described in the explanations of figures.

Pair artistic cycling: When in the explanations of figures or in the name of figures the term “separate” is not prescribed for a figure on two bicycles, or in these regulations just a touch of hands is being asked for, the figure must be shown totally or partially in grip connection.

(text modified on 01.01.16, 01.01.23)

- 8.2.035** Forehead-line
The required number of riders (2 con., 3 con., 4 con., 6 con.) ride and/or stand, side by side, in the same direction. They are connected to each other by a grip connection. The distance between the riders has to be identical.

(text modified on 01.01.16)

Complement for ACT4

- 8.2.036** Counter direction (count. dir.)
If the term “counter direction” is prescribed in the name of the figure, a rider or a group of riders have to ride in clockwise direction and the other rider or group of riders have to ride in anti-clockwise direction. The way of execution is described in the respective explanation of the figure. The riding-direction (forward or backward) has to be identical.

(text modified on 01.01.20, 01.01.23)

8.2.038 Rules for figures performed “inside individual”, “turn on” and “outside individual”

Explanation:

Inside individual, turn on and outside individual are extensions of a figure as it is described in the explanations of figures. The riders ride with a uniform way of riding to the position of the figure, grasp simultaneously the position of the figure (inside individual or turn on) and leave the position of the figure uniformly (outside individual). A figure can be performed either only inside individual or turn on or inside and outside individual or turn on and outside individual. For this, the following rules apply:

1. Inside individual:
 - a) All riders ride at least 2 metres in the respective way of riding according to the name of figure, separate and without grip connection into the position which is described in the explanation of figures.
 - b) After the inside individual, the grip connections have to be closed simultaneously and in motion. Exception: For “Stars” the grip connection doesn’t have to be closed in motion.
 - c) For figures, which have to be performed within the middle circle or around the inner circle, the inside individual has to be started outside of the middle circle.
 - d) For “Stars” which are performed 2 con., 4 con., 6 con. as inside individual, the inside individual has to be performed in grip connection.
2. Turn on:
 - a) The turn on has to be executed after the inside individual (see 1. a) within a diameter of maximum 50cm. The turn on motion can be less than 360°.
 - b) After the turn on the riders have to ride free-handed and separate into the position which is described in the explanation of figures. The grip connections have to be closed, simultaneously and in motion.
 - c) The tactical enlargement has to be awarded after closing all grip connections within 2 metres after the turn on.
 - d) For figures, which have to be performed within the 4-metre-circle, the inside individual has to be started outside the middle circle.
3. Outside individual:
 - a) After the corresponding figure, the riders have to release the grip connections simultaneously and in motion.
 - b) All riders have to perform the outside individual at least 2 metres in the respective way of riding according to the name of the figure.
 - c) For figures, which have to be performed within the middle circle the outside individual has to end outside of the middle circle.

Rules for the way of riding:

1. inside individual or inside and outside individual
 - a) inside individual (inside indiv.)
The inside individual and the figure can be executed in any way: free-hand, with one or both hands on the handlebar. The way of riding of all riders has to be uniform.

- b) inside and outside individual (in- a. outside indiv.)
Execution of inside individual (see a). The outside individual can be executed in any way. The way of riding of all riders has to be uniform.
- 2. free-hand inside individual / free-hand inside and outside individual:

The turn on into the figure which is described in the explanation of figures and the figure has to be executed free-hand.
 - b) turn on and outside individual free-hand (turn on a. outside indiv. frh.)
The turn on frh. (see a). The outside individual has to be executed free-hand, too.

§ 5 Way of stretch

- 8.2.041** Explanation way of stretch
Way of stretch is the designation for the progress of figures on the competition surface. All figures have to be performed within the competition surface. The distance ridden at the outside of the competition surface has to be repeated inside.

- 8.2.042** Circle (C.)
Only the distance ridden outside the middle circle is valid for the evaluation. During the execution of a circle the distance to the centre of the competition

surface have to stay the same for the total way of stretch. A circle ends after at least one complete drive around the middle circle.

(text modified on 01.01.16)

8.2.043 Half circle (HC.)

Only the distance ridden outside the middle circle is valid for the evaluation. During the execution of a half circle the distance to the centre of the competition surface have to stay the same for the total way of stretch. A half circle ends after at least a half drive around the middle circle.

(text modified on 01.01.16)

8.2.044 Eight (8)

An eight is formed by two circles. Both circles must have the same diameter with a minimum of 4 metres. One circle has to be performed clockwise, the other circle has to be performed anti-clockwise. The change of direction has to be performed within the inner circle. The inner circle has to be crossed twice during the execution of an 8. The circles have to be executed each in one half of the competition surface. The competition surface is split in two by an imaginary straight line, which runs through the inner circle.

8.2.045 Half eight (S)

A half eight is formed by two half circles. Both half circles must have the same diameter with a minimum of 4 metres. One circle has to be performed clockwise, the other half circle has to be performed anti-clockwise. The change of direction has to be performed within the inner circle. The inner circle has to be crossed once during the execution of a S. The sequence of the figure starts at the longitudinal or transversal axis of the competition surface. The half circles have to be executed at two, across from each other, placed quarters of the competition surface (one half circle in each quarter). The competition surface is split in 4 quarters by the longitudinal and transversal axis.

(text modified on 01.01.16)

- 8.2.046** 50cm-spinnings (spin.)
 Spinnings have to be performed on a spot with a maximum diameter of 50cm. The spinnings start being judged when the diameter has been achieved by all riders. At least 3 complete, successive, spinnings, within the mentioned diameter of 50cm, have to be performed simultaneously by all riders. When spinnings are performed as part of a figure with described grip connection at the beginning and/or at the end of the figure the release and grapple of the grip connection must be performed simultaneously and in motion. For pair artistic cycling it is allowed to change the riding-direction.
ACT4: All figures with the term “spinnings” in the name of the figure have to be executed at least 2 metres before and after the 50cm-spinnings in the described position of the figure.
 The tactical enlargement has to be awarded after closing all grip connections within 2 metres after the 50cm-spinnings.
 Exception “Remmlinger spinnings”: This figure has to be executed according to the explanations of the figure.

(text modified on 01.01.16; 01.01.17; 01.01.22, 01.01.23)

- 8.2.047** Turn on the spot
 During the figure, the grip connections have to be released from the corresponding position of the figure simultaneously. Then, all riders have to turn on the spot immediately for ½ turn, 1 turn or multiple times, simultaneously and without pedalling. The riders rotate around their own body longitudinal axis. After the turn on the spot the grip connections have to be closed simultaneously, and the riders have to stand without moving. The distances between the riders have to be identical.

(text modified on 01.01.16)

- 8.2.048** Single rings (s.r.)
 A single ring is a small circle, completely performed around a spot on the competition surface. The release of the starting position in single rings, and the grapple into the end position have to be performed in motion. The single ring ends, when the point is rounded completely with released grip connection and when the riders have reached the starting position. For the following figures the riders have to touch one of their hands, before and after the single rings, indicating the start and the end of the figure: Saddle-handlebarstand, Handlebarstand and Saddlestand. During the performance of single rings in mills the riders have to leave the middle circle. Single rings may only be as large as the other rider cannot be rounded.

(text modified on 01.01.16)

- 8.2.049** Figures which may be shown anywhere on the competition surface:
 Handlebar spinnings, handlebarstand turns, stillstands, turns, squats, jumps, 50cm-spinnings, turns on the spot, single rings out of forehead-line, passages and final figures.
 Exceptions for ACT4 are described in chapter II specific rules and in the explanations of figures.

Complement for pair artistic cycling

8.2.050 Counter eight (Count. 8)

Each rider executes an eight. The sequence of the figure starts on the inner circle, where both riders ride from opposite directions, with a touch of hands of the riders (except handstand). The figure ends after completing the total way of stretch with a touch of hands (except handstand) of the riders, again on the inner circle.

8.2.051 Counter circle (Count. C)

Each rider executes each on a separate half of the competition surface a complete circle with a minimum diameter of 4 metres around a point. The points are located with the same distance to the inner circle on the longitudinal axis.

The competition surface is imaginary split, by the transversal axis.

The sequence of the figure starts and ends on the inner circle with a touch of hands of the riders.

The way of stretch which is executed during the handlebar-turn belongs to the content of the total way of stretch of the counter circle.

(text modified on 01.01.16)

8.2.052 Mill

1. Connected by hand-in-hand grip with their left or right hands, the riders show the figure in the middle of the competition surface. A way of stretch with at least one complete drive around the inner circle has to be performed.
2. At performing a mill with single-rings (s.r.) or mill-spinnings (mill. spin.) the riders have to show a grip connection at the middle of the competition surface at the start of the figure. Then the riders release their hands; execute the single-rings or mill-spinnings; and grab back to the hand-in-hand grip connection in the middle of the competition surface in motion. For single rings, combined with a mill, the riders have to leave the middle circle during the single ring.

Chapter IV EVALUATION

§ 1 General rules for evaluation

- 8.4.001** Start of the evaluation
As soon as one of the riders enter the competition surface the evaluation starts (see article **8.2.004**).
- 8.4.002** End of the evaluation
Regulations regarding the end of the evaluation, see article **8.2.005**.
(article introduced on 01.01.16)

§ 2 Evaluation of difficulty

- 8.4.003** Decisive for the evaluation of difficulty are:
The general rules (chapter I), the specific rules (chapter II) and the explanations of figures (chapter III). With the evaluation of difficulty all faults have to be devalued if they occur during the performance.
(text modified on 01.01.16)
- 8.4.004** Sequence
If the sequence of figures is not performed according to the riding performance, the left out figures have to be devalued with: **100%**
If there are mixed up figures the commissaires panel will decide about the devaluations by majority decision.
(text modified on 01.01.16)
- 8.4.005** Presentation
If the riders are not presenting themselves standing on the competition surface, the first figure will be devalued by: **100%**
(text modified on 01.01.16)
- 8.4.006** Start of riding performance
The riding performance will start with a clear "START" call, announced by the performing rider. If not, the first figure has to be devalued by: **100%**
(text modified on 01.01.16; 01.01.20)
- 8.4.007** Start of a figure
1. Each figure starts with its prescribed position, if necessary, with its prescribed grip connection and described conditions in the explanations of figures. Deviations from this have to be devalued: **100%**
 2. Line figures start independently of the riders' distance to the border of the competition surface, but they end 1 metre before the end of the border of the competition surface. A devaluation occurs corresponding the missing way of stretch.
 3. Half eights start independently from the longitudinal or transverse axis after reaching the starting position of the figure, a devaluation occurs corresponding the missing way of stretch.

4. Counter circles and counter eights start independently from the touch of hands always on the inner circle, a devaluation occurs corresponding the missing way of stretch.
5. If a touch of hands over the inner circle at the beginning and/or at the end of a figure is required, but is not shown, devaluation of: **10%**

(text modified on 01.01.16)

8.4.008 Not recognisability of figures

All figures listed on the evaluation sheet have to be shown according to the explanations in these regulations. Figures which cannot be recognised have to be devalued: **100%**

(text modified on 01.01.16)

8.4.009 Way of stretch

“Way of stretch” is the description for the whole process of a figure which is determined in chapter II specific rules, in the explanations of figures (chapter III) or in the corresponding list of figures (chapter V).

All figures on the evaluation sheet must be entirely shown by all riders together from beginning until the end of a figure in the defined manner of riding and modality over the entire way of stretch. For the start and end of a figure, the body balance point is relevant.

1. If the figure is shown less than half of the way of stretch, devaluation of: **100%**
2. If the figure is shown less than 9/10 of the way of stretch, devaluation of: **50%**
3. If the figure is shown less than the total way of stretch, devaluation of: **10%**
4. With an incorrect descending of the front wheel over more than 1 second, the way of stretch ends.
5. With falling or standing on the floor over more than 1 second the way of stretch ends.
6. With forbidden leaning and/or pushing of over more than 1 second the figure ends.
7. If a rider at a half eight or 8 is missing the middle point more than 75 centimetres, a devaluation occurs corresponding the missing way of stretch.
8. If a rider touches the handlebar, the bicycle, or other riders during free-hand figures for more than 1 second, the way of stretch ends.

8.4.010 Tactical figures (single and pair artistic cycling)

The tactical enlargement has to be awarded as soon as it has become recognisable that a tactical extension is attempted by the increase in number. If a tactical extension is possible in the form of an altered execution method, this will only be evaluated and recognized when the tactical extension has been fully executed. A devaluation of difficulty occurs corresponding to the rules for the missing way of stretch according article 8.4.009. The required way of stretch includes the tactical enlargement.

Chapter VI UCI Artistic Cycling World Cup

- 8.6.001** The UCI Artistic Cycling World Cup shall be the exclusive property of the UCI.

Participation

8.6.004 Preliminaries

The eligibility of participation in the preliminaries of the UCI Artistic Cycling World Cup depends on the highest ranking of the National Federations in the respective discipline of competition at the recent UCI Indoor Cycling World Championships. The National Federations are entitled to register a maximum number of riders or teams for the UCI Artistic Cycling World Cup as follows:

Discipline	Ranking UCI Indoor Cycling World Championships		
	place 1 to 3	place 4 to 5	from place 6
	Maximum number of riders / teams for		
Single Women	3	2	1
Single Men	3	2	1
Pair Women	3	2	1
Pair Open	3	2	1
ACT4	2	1	1

If the maximum entries are not fully used by the eligible National Federations, other National Federations that have no or only one entry may register for the available entries. In this case a National Federation may only get a maximum of 2 entries per discipline. The application for additional entries is made by the registration for the respective preliminary round.

The allocation of the free entries is as follows:

1. National Federations which do not have a regular entry in the corresponding discipline will be considered with one entry first.
2. Then all National Federations with one regular entry will receive one additional entry.
3. Then National Federations from 1) can get a second entry.
4. If there are more registrations than there are free entries available, the date of receipt of the registration is decisive.

8.7.043 Cycle ball is divided into following age categories:

A.	Pupils league	up to 14 years	= under 15
B.	Youth league	up to 16 years	= under 17
C.	Junior league	up to 18 years	= under 19
D.	Young Elite league	up to 23 years	= under 23
E.	Elite league	from 19 years on	= from 19 on

The league depends on the year of birth, i.e. throughout the year of a player's 18th birthday he may play in the Junior league.

The leagues may if necessary, at the discretion of the national federations, be divided further in order to restrict the number of competitors or be combined where there are too few.

8.7.044 The game (match) time depends on the different age categories:

A.	Elite and young elite	2 x 7 minutes
B.	Juniors	2 x 6 minutes
C.	All others	2 x 5 minutes

The match times can be reduced to a minimum of 2 x 5 minutes for certain tournaments or prequalifying rounds. The game time shall be taken to mean the two halves excluding a two minute break between halves.

8.7.045 A game of decision shall comprise only a single half (without changing ends). 1 x 7, 1 x 6 or 1 x 5 minutes as per normal game time. **The game of decision will start with a neutrall ball.**

(text modified on 01.01.25)

8.7.046 The maximum time allowed to change ends may not exceed 2 minutes. Infractions of the rule should, after two verbal warnings, be penalized by an official warning to the team (both players).

Should the team ignore the official warning a second warning should be given and as a consequence the match be stopped.

8.7.047 Intentional time-wasting, match breaks or interruptions to the game attributable to one player or a team may lead to a stoppage after a warning by the commissaire. In such a case the commissaire announce via the time-keeper the additional time to be played (minimum of 20 seconds).

The remaining time must be clearly announced. Where the time is displayed electronically, a verbal announcement is not required.

The commissaire shall restart the game by blowing a whistle. He shall also whistle at an out ball, in order to give the time-keeper the precise signal.

8.7.048 In case of differences of opinion regarding the exact time remaining it shall always be the time keepers' time that is definitive. At half time and the end of the match it is the beginning of the timekeeper's signal which determines the end of play.

Any goal scored during an accidental extension of play shall not be cancelled. If the end signal is given too early, the remaining match time shall be played after an announcement of the remaining time. In case of a dispute concerning the time the commissaire shall decide after consulting the timekeeper.

(text modified on 01.01.25)

Chapter VIII GAME RULES

A ball which rebounds from a bicycle or the body of a player shall be considered as a valid kick. Headers are allowed.

(text modified in 1.01.18)

8.8.003 Obstruction of the opponent (purposely riding into his bicycle, pushing or grasping), leaning on a goal-post or wall, leaning on the other player with hands or body, loud shouting (within the team, towards the coach, towards the opponent or any other person), objections (against a fellow player, opponent, commissaire, jury, coaches or public), shall be considered as against the rules and will be penalized.

For the sake of clarity and as a matter of example, if a player of the attacking team, not controlling the ball, is riding actively in the direct path of the defender towards the ball and hinders him, is blocking the opponent, then such a behaviour is considered an obstruction and will lead to a free kick.

(text modified on 01.01.21)

8.8.004 Only the ball and never the opponent or his bicycles may be tackled. A player having the ball may only be tackled on the ball side.

8.8.005 Inside the match field or on the field boarding the ball may not be blocked unless an opponent is obstructing.

If a player is not obstructed by an opponent and fails to continue the game after the commissaire gives a warning it shall be considered a breach of the rules.

(text modified on 01.01.25)

8.8.006 If the ball is stuck to the bicycle or to the body of a player, this causes a neutral ball.

(text modified in 1.01.18)

8.8.007 It is not permissible to jump from the bicycle in order to catch an unreachable ball. In the event that this occurs repeatedly it shall be penalized with an official warning.

8.8.008 Coaching area

Only two responsible persons of the team are allowed to take place on the chairs in the coaching area (see sketch point 8.1.018).

8.8.009 Time-wasting

If a commissaire is convinced that a team is trying to keep the ball, and by doing this gain time, he shall inform the players with a hand signal (picture 4).

The team shall have **approximately** 20 seconds to attempt an attack. Should the team not finish the attack within this time, the commissaire decides on foul, which will be penalized by a free kick in the centre of the match field.

(text modified 01.09.2024)

§ 2 Kick off

8.8.010 To start a game the commissaire shall toss a coin to determine which team shall start the game. The winning team shall begin the first half. The other team shall start the second half.

After each goal the team against which the goal was scored shall have the right to restart the game.

§ 3 Start of the match

8.8.011 The ball shall be placed on the centre point at the beginning of a game and after each valid goal scored.

8.8.012 At the start of the first or the second half and after each goal the players may stay wherever they want in the field except in the centre circle and in the penalty area of the opposing team.

8.8.013 After the starting whistle the attacking team may ride into the centre circle and move the ball. The ball may be touched more than once by the first player. The defending team may enter the centre circle as soon as one of the attackers have touched the ball.

8.8.014 If a member of the defending team enters the centre circle and remains there at starting of the game (touch of the ball), the defender will be penalized by a free kick on the nearest place of the defenders goal (center line). The commissaire may optionally give advantage to the attacking team if the attack can be continued without delay.

§ 4 Interruption / Whistling signal / Neutral ball

8.8.015 The start of each half time and any other interruption shall be given by whistle by the commissaire. On each goal the commissaire shall blow a long whistle. Half time and the end of the game shall be given by a signal from the timekeeper. The commissaire shall whistle to confirm the end of the first half and the end of the game with two long whistles but the definitive signal is that from the timekeeper.

8.8.016 The commissaire must interrupt the game in the event of:

- Any breach of the rules.
- The ball leaving the match field.
- A goal.
- The ball hitting the ceiling.

The commissaire must interrupt the game and stop the time by giving a hand sign (according to picture nr 6) and a short whistle in the event of:

- A player, the jury or other persons have to be verbally notified.
- The score or time is not clear.
- A player is injured or an injury is suspected.
- Official warnings
- Disqualification.
- The match field being not set up properly or in line with the rules.

(text modified in 1.01.18)

8.8.017 The time shall not be stopped in the event of a problem to bicycle equipment or incorrect sportswear.
An exception shall be made if any scattered object is on the match field or if sportswear has become indecent.

8.8.018 If the match has been interrupted for some reason and the ball has not left the match field, or no offence against the rules has been noticed, the game should be continued by means of a neutral ball. A neutral ball shall be given in the event that the ball hits the ceiling or any other foreign object. In all cases the neutral ball shall be given on the centre point of the field. The players have to wait outside the centre circle and can enter the centre circle and touch the ball after the commissaires whistle. A player may touch the ball several times.

§ 5 Advantage rule

8.8.019 Since a player who commits an offence should never gain an advantage from the situation; the commissaire may decide not to interrupt the game and to give the advantage to the none-offending team although the other team has committed an offence.

If advantage is given, the commissaire shall give a signal by showing the direction of the game and to say "Go on" (see picture number 2). If the advantage is lost during the same game situation, the commissaire may decide to withdraw the advantage by interrupting the game in favour of the team which is not at fault.

(text modified in 1.01.18)

§ 6 Riding behind goal line / Permission to participate the game

8.8.020 If during a match (except at interruptions or at half time) a player falls, touches the floor, leans against an other player, leans against the wall, leans on the match field boarding, leans on the ball or the goal that player shall not be permitted to continue playing.

8.8.021 To become eligible to play again, the player concerned has to ride or walk immediately behind his goal line and re-enter the match field on the same side. He must cross the goal line with one wheel outside the penalty area.

8.8.022 If a player who is not allowed to participate in the game disrupts the game by lying down or standing, or by covering or holding his opponent or touching the ball with the intention of disadvantaging his opponent, the player shall be penalized with a free kick.

(text modified in 1.01.18)

- 8.8.023** If a player in his own penalty area touches the floor or leans against the goal, he must leave his penalty area immediately and cross the goal line in order to get permission to return to the game.

The player concerned has to cross the goal line in such a way that both wheels have left the penalty area and at least one wheel has crossed the goal line outside the penalty area.

- 8.8.024** Should an ineligible defender remain in the penalty area, a penalty (4 m.) kick shall be given if he touches the ball or impedes his opponents.

- 8.8.025** Offences against riding behind the goal line in the field shall be penalized with a free kick, in the penalty area with a penalty kick.

§ 7 Scoring a goal

- 8.8.026** A goal shall be valid if the ball passes the goal line between the goal posts.

If the ball rolls on the floor the central contact point of the ball has to pass the back of the goal line.

The same principle shall apply to any ball in the air.

The goal is still valid even if the player falls off his bicycle after striking.

- 8.8.027** If a goal is being moved from its normal position during the game and a goal is scored, the determining item shall be the imaginary line between goal posts and not the floor marking. If the ball passes an imaginary line between the goal posts, the goal shall be valid.

- 8.8.028** A ball struck or deviated into a player's own goal shall count towards his opponent's score.

- 8.8.029** After a disallowed goal the ball shall be put on the right corner point and may be played by the defending team.

§ 8 Out ball

- 8.8.030** If the ball leaves the match field over the long sidelines on the ground or in the air the match should be interrupted. The commissaire should collect the ball and place it 1 meter away from the sideline where the ball crossed. The team which did not put the ball out of play shall serve. The opponent must keep a distance of at least 2 meters from the ball and the commissaire shall allow the game to restart without any signal. If the opponent is less than 2 meters from the ball a free kick shall be given.

- 8.8.031** If the attacking team kicks the ball over the goal line outside the goal, the ball shall be put on the corner marking on the side where the ball went out. When the ball crosses the goal line the commissaire shall whistle. The defending team may restart the game without any signal from the commissaire.

- 8.8.032** An out ball may be touched several times by the serving player.

- 8.8.033** Should the half time or match time be finished the out ball regardless on the goal line or sideline is not executed.

§ 9 Corner ball

- 8.8.034** If a ball is hit by a defending player, or comes off the defenders body or bicycle and crosses his own goal line, the commissaire shall whistle to stop the game and a corner will be awarded to the opponent.

A corner ball must be served from the corner point after a whistle signal from the commissaire.

All players should be on their correct position.

- 8.8.035** For the execution of a corner ball the defending player (goalkeeper) should have both wheels in his penalty area while his partner should stay behind the centre line on the opposite side of the corner point. Outside the dotted defense line he should keep a minimum distance of 4 meters.

After the ball has been touched the defenders are allowed to leave their position. The ball is considered as being hit as soon as the ball is touched by the attacking player after the whistle from the commissaire. The second attacking player is not allowed to be in the defending teams' penalty area nor on the opposite side between the penalty area and the dotted defence line.

The middle line between the penalty spot and the centre of the penalty area is considered as being a "wall" even in the penalty area. This means that this "wall" may not be passed by neither the offence nor the defensive player prior to the serve of the corner. This does not only concern the floor contact area of the wheel but also the foremost point of the wheel, bicycle or body.

- 8.8.036** The corner ball may be touched only once. A served corner ball being bounced on the goal frame or the boarding may not be touched for a second time by the serving player as long until some other player has touched the ball.

- 8.8.037** A corner must be executed even if the match time (half and full time) is over. (last kick)
A goal by last kick shall only count, if the goal is scored directly or because of a mistake at the goalkeeper's defence.
During execution of a last kick the other players may not interfere, not even pretending an action.

- 8.8.038** A last kick corner may not lead to a further corner.
If the corner is not defended according to the rules a penalty kick shall be awarded and executed.

§ 10 Goal defence

- 8.8.039** All offences against the rules of the goalkeeper within the penalty area should be penalized by a penalty kick.

- 8.8.040** The goal defense can be executed by either player of the team. The goalkeeper is entitled to use one or both hands to defend his goal as long as both wheels are in the penalty area, both feet are on the bicycle pedals and he is eligible.

- 8.8.041** A ball caught by the goalkeeper within the penalty area may not be thrown out further than the dotted defence line and the ball must touch the floor within 3 seconds. The ball may not be thrown towards the co-player (the head, the body or the bicycle) as long as the he is outside the defence line.

Should a beaten off ball bounce off in front of the defense line and then roll over this line, no offence has been committed.

- 8.8.042** The ball may be beaten away with the hands (even a double beat), even if it passes the defense line as long as the ball has not been caught first with one or two hands.

- 8.8.043** A ball that was beaten off with hands and continues to roll, either inside or outside the defense line, may only lead to a goal if it was defended correctly and touched by another player.

Thus a direct goal from the hand cannot occur, except for an own goal resulting from incorrect defense from the goalkeeper.

- 8.8.044** If the goalkeeper catches the ball he may bounce it once on the floor and catch it again. Then the ball must be thrown or kicked.

§ 11 Penalty area

- 8.8.045** During the game only one player of the team may be in the penalty area and act as goalkeeper. A player is considered as being in the penalty area as soon as a part of his bicycle or body touches the floor in the penalty area.

- 8.8.046** At any time only one player from the attacking team may be in the opponents' penalty area providing the ball is in the penalty area. A player is considered as being in the opponents' penalty area as soon as a part of his bicycle or body touches the floor in the penalty area.

If a player gains possession of the ball, on the floor, from inside the penalty area although he stays outside the penalty area he shall be considered as being inside the penalty area.

The elongated line from the penalty area behind the goal line is not considered as part of the penalty area.

- 8.8.047** If a ball is kicked away from the penalty area so that the attacking player is left inside the penalty area without a ball, this shall not constitute an offence as long as the ball rolls away from the goal and the goalkeeper is not hindered by the attacker in any way.

Should the attacking team gain the ball, no advantage shall be given but considered as "offside". The attacking player in the opponents' penalty area shall regain his eligibility if he leaves the penalty area.

- 8.8.048** If the commissaire decides that there has been a breach of the rules, this offence will be penalized with a free kick from the centre of the penalty area at the beginning of the middle line (off side point).

- 8.8.049** If both attacking players are in the opponents' penalty area, even if the ball is inside, it is considered as an offence to the rules and be penalised with a free kick on the off side point. The ball has to be kicked after the whistle from the commissaire by one of the defending players. He may touch the ball only once.

8.8.050 The goal area is considered as being part of the penalty area

§ 12 Free kick

8.8.051 A free kick is granted for offences committed outside the penalty area. The ball is placed at the point the offence happened, but at least one meter from the boarding. After the defender has reached a distance of at least 4 meters from the ball, the commissaire whistles. Should this distance not be kept, before the ball is kicked, a new offence against the rules shall be given.

If the free kick is less than 4 meters from the goalkeeper the following is obligated: Before the whistle, the defending goalkeeper has to stay in the penalty area parallel to the goal line, and no more than 15 cm in front of his goal line. He may leave this position only after the ball is has been hit by his opponent.

A free kick may only be served once; prior to a second serve, the ball must be touched by another player or his bicycle. A player shall not be eligible for a second serve if the ball touches the goal frame or the field boarding.

8.8.052 A free kick must be served even if the normal time (half and full time) is over. There will be a “last kick”.

A last kick results in a goal, if kicked directly on the goal or through a defensive error.

A last kick will not lead to a corner. During execution of a one shot the other players may not interfere, not even pretending an action.

Offences against the defense rules must be penalized with a penalty kick.

§ 13 Penalty kick

8.8.053 A penalty is the punishment for offences committed within a player's own penalty area.

A player is considered to be within his own penalty area as soon as part of his bicycle or his body touches the floor of the penalty area even if the offence is done outside the penalty area.

Offences outside a player's own penalty area leading to a penalty kick:

- A. If a player, not having the possibility to reach for the ball, stops his opponent with the intention to prevent a goal with a ruthless foul (e.g. fouling the not ball-keeping opponent)
- B. If a player who is not allowed to participate in the game stops an opponent or the ball by walking, running, jumping or using the bicycle to avoid an attack. (leaving a stable position)
- C. Playing the ball purposely by hand outside the penalty area.
- D. Purposely pushing or pulling the goal away by a defending player or his coach or teammates.
- E. When a player does not hold his bike and on purpose holds or deviates the ball or obstruct the opponent.

- F. When a player is ready to kick the ball in an empty goal and is obstructed by his opponent.

(text modified on 01.01.21)

- 8.8.054** At a penalty kick all players with exception of the goalkeeper and the player kicking the ball should take up position behind the penalty spot. After the whistle the ball has to be directed directly towards the goal. The other two players may in no circumstances interfere.

The defending player (not the goalkeeper) must keep a distance from 4 meters towards the ball and has to be on the other side from where the attacking player is going towards the ball. Both non active players can come into the game as soon as the ball has been touched.

If the defending player breaks the rule a new penalty kick shall be given. If the second attacking player commits an offence he will be penalized by a free kick.

- 8.8.055** A penalty kick can only be served once and must be kicked directly towards the goal. Riding past the ball and “breaking” during the attack is not permitted. Offences hereto are penalized by a free kick.

The rebound of the ball from the goal post does not entitle the penalty kicker to a second serve.

- 8.8.056** The defense against a penalty kick must be such that the goalkeeper prior to the whistle signal is situated with front and rear wheel parallel to the goal line and maximum 15 cm in front of it.

The defender may leave this position from the moment on the ball has been served.

Offences against are penalized by a new penalty kick.

- 8.8.057** A penalty kick must be executed even if the half or full time has been reached. If the finishing signal sounds before the execution of the penalty kick, the commissaire will give a whistle signal to serve if the goalkeeper is in position. If the finishing signal sounds when the ball is in the air but has not past the goal line, the goal does not count and the penalty kick will not be repeated.

A penalty kick goal executed after the end of game time will only be counted if the ball goes into the goal without help of the other players not involved in the execution of the penalty kick. The players directly involved in a penalty kick are the serving player and the defending goalkeeper. The serving player may not kick a second time if the ball rebounds from the goal post or goalkeeper.

A penalty kick correctly executed after regular time which crosses the goal out line will not lead to a corner ball.

If a penalty kick has been defended incorrectly and no goal has been scored a new penalty kick shall be given.

Should the penalty kick not be executed correctly while served after the regular time, e.g. like stopping, braking during the attack etc, there will be no further punishment. The penalty kick shall not be repeated and the game is over.

§ 14 Whistle signals

- 8.8.058** At the start of the half, a corner, a penalty kick, a free kick and a neutral ball the ball will be put into play after a whistle signal.

A corner ball, penalty kick and free kick can only be served once, after which the ball has to be touched by another player or his bicycle. After serving all other players are allowed to continue playing.

8.8.059 If any ball which can only be served after a whistle signal is served prior to that signal, it shall be repeated.

8.8.060 If the ball goes out of play during the match, a whistling signal is given to interrupt the game. The ball will be put by the commissaire on the spot that the ball left the match field. If the ball went out on the extended goal line the ball shall be placed on that corner spot on the side where the ball went out. Under no circumstances shall a whistle signal be given to restart the game.

The release of the ball does not depend on the security of the goal; it is playable immediately.

8.8.061 In case of any offence, the commissaire must very clearly show against which team a free kick or penalty kick is given. The same procedure has to be followed for corner ball and out balls.

8.8.062 The signals for free kick, penalty ball, corner ball and neutral ball shall be given as soon as all players have taken their positions at the required distances from the ball.

§ 15 Complaints / Improper behavior / Unsporting behavior

8.8.063 In the event of improper behavior of a player or team the commissaire should warn the concerned party by a verbal warning or a yellow card.
Improper behavior shall include cases when:

- One player or more players repeatedly criticizes a decision taken by the commissaire.
- A player seeks to argue with his opponent, partner, the tournament jury and/or spectators.
- Repeated unjustified protest by raising one hand.
- Repeated on purpose violations of the rules.
- Quitting the game or leaving the match field without justified reason.

(text modified in 1.01.18)

8.8.064 Should the coach of a team repeatedly disrupt the progress of a match or repeatedly criticize a commissaire, the commissaire may sanction the coach with a yellow or red card. In the case of a red card, the coach must leave the hall.

(text modified in 1.01.18)

8.8.065 If warnings are being issued the match must be interrupted, the time stopped (picture 6) and the concerned person(s) shown the yellow card. The commissaire must inform the jury of the reason of this yellow card. The jury must announce the warning and the remaining match time. With electronic time panel the time announcement has not to be given. After this the commissaire can continue the game.

8.8.066 If the behavior of a player is cause for a second yellow card during the same game, the commissaire must act as per article 8.2.066.
The referee will then show him the red card and the concerned player has to leave the match field.
The result of the game will be 5:0 against the team in question, unless the score of the opponent is already higher.

8.8.067 In case of extreme unsportmanship the concerned player may be sent off without prior warning and should receive directly the red card.

Unsporting behavior includes:

- A player stopping or holding back his opponent violently, not having a possibility to reach for the ball and consciously acknowledging the risk of causing an injury for his opponent.
- Violence against players, jury, commissaires or public.
- Insulting the commissaire.
- Throwing or kicking the ball at the commissaire.
- Purposely riding the bicycle towards or pushing the commissaire.

In the above cases the game will be stopped and the game lost 0:5 unless the opponent's score at that point is better.

(text modified on 01.01.21)

8.8.068 A warning shall always be followed by a yellow card.

§ 16 Injuries and suspension of players and teams

8.8.069 In case of non-attendance or late arrival or the elimination of a team the following rules are applicable.

8.8.070 Any game where both players are not on the match field at the starting signal of the game shall be considered as lost with a score of 0:5.

8.8.071 The jury is permitted to change the order of play where a team arrives late due to force majeure.

8.8.072 A team which arrives late at the contest hall may play their remaining matches if not all games of his group have been played. The matches already missed shall however still be considered as 0:5 defeats.

8.8.073 If a team stops competition by not appearing in a tournament or series, all games shall be deemed lost by 0:5 goals.

8.8.074 Should a team or a player be suspended under article 8.2.067 the player or team may start the next game.

8.8.075 If a player is suspended according art. 8.2.068 he may not play in the next two games. He can be replaced by a substitute.
In the event of very serious infractions disciplinary procedures can be started against the person concerned in line with chapter 12 "Discipline and Procedures" of the UCI Regulations

8.8.076 If both players are suspended under article 8.2.068 all games for this team should be abandoned.

The team shall be excluded from rankings and prizes.

8.8.077 If both players are suspended during a championship series or ranking series under article 8.2.068 they retain the points already scored. The remaining games shall be lost with a score of 0:5.

8.8.078 If a team drops out of the tournament due to injuries, illness or lack of a substitute, the team's results up to that point shall be counted. The remaining games shall be lost 0:5.

8.8.079 If a player indicates an injury by raising his hand the commissaire may stop the game.

If the commissaire can not clearly identify the injury, he has to give a signal by raising his hand showing that he noticed his signal but there is no obligation to stop the game. The commissaire must be sure that the wound is not feigned for diverse reasons such as a damaged bicycle. In the latter case, there is no interruption of the game.

If the commissaire comes to the conclusion that there is a real injury, he has to interrupt the game. He gives by hand the signal to the responsible person (coach) or and to the doctor that he can enter the field. Only one responsible person, a doctor or another person belonging to the medical service is authorized to enter on the field of play.

If the responsible person or the doctor enters the field before the commissaire gives the signal by raising his hand, the team concerned shall be punished with a penalty kick (4 meters).

During time interruptions due to injuries, bicycles can be exchanged and or repaired outside the boarding (coaching zone)

The linesmen shall follow these actions very scrupulously in order to recognize any irregularity or to clarify the situation.

8.8.080 If a player is seriously injured and has to leave the field, the substitute player may replace him immediately. The game shall continue within the next 5 minutes (time of interruption). In some special cases, the commissaire may increase the time of interruption to a maximum of 10 minutes.

The injured player can, after having been replaced by a substitute, continue the tournament after having informed the commissaire or President of the Commissaire. If the same player gets injured for the second time he may not participate in the tournament any longer.

One player from the original team must always remain in the team. None of the other players are allowed to leave the field.

During the injury-interruption, responsible members of the adversary team are not allowed to enter the field. They shall stay behind the boarding surface.

Chapter IX RESULTS / CLASSIFICATION BY POINTS / OBJECTIONS

§ 1 Results

- 8.9.001** Every valid kick into the goal shall be counted as being scored.
- 8.9.002** After each valid goal and after each half the score should be clearly announced.
- 8.9.003** The goals scored must be recorded as they happen by the secretary of the tournament jury.
The scoreboard should display the actual score to players and spectators.
- 8.9.004** The winner of a game is the team who score the most goals. In the event of equal scores the match shall be drawn.

§ 2 Classification by points

- 8.9.005** For each game won the winners are awarded 3 points. For a drawn game both teams are awarded 1 point. The losing team is awarded no points.
- 8.9.006** The result for a tournament or championship is calculated by summing up all the points scored by each team.
- 8.9.007** If qualifying matches etc. are played, the points awarded for them are only calculated for that particular round. It is however permissible to add points from the preliminary or semi-finals together if participants are notified in advance.
- 8.9.008** The winner shall be the team with highest points total.

§ 3 Ties / Final matches

- 8.9.009** Days of matches, rounds of a competition over several days
In the event of a tie on points, goal difference shall determine the ranking. Goal difference is calculated by subtracting goals scored against the team from the goals scored by the team. The goal difference may be positive, negative or zero.

If two teams are still tied on goal difference, the team with the highest number of goals scored shall be given the higher ranking.

Should the result remain tied, a game of decision under article 8.1.046 should be arranged if the result determines the next round or promotion or relegation between divisions.

(text last modified on 01.01.23)

- 8.9.010** Final round in championships, national and international competitions
In the event that two teams are tied on points for first place a game of decision will be played under article 8.7.045. If the result of this game is also tied, the result shall be determined by penalty kicks as per paragraph 4.

Should more than two teams be tied for first place, the results of games between these teams shall be considered. The two highest in this ranking shall play a

game of decision under article 8.7.045. Should this match be drawn the result shall be determined by penalty kicks under paragraph 4.

If more than two teams are equal on points after the above calculation the two teams with the best goal difference shall be placed first and second. In the event of a tie on goal difference the team with the highest number of goals scored shall be the winner.

The top two teams shall play a game of decision as per article 8.7.045 to determine the winner. Should this match be drawn the result shall be determined by penalty kicks under paragraph 4.

If more than two teams are still tied after considering goal difference, the result in the total final round shall determine the leading team. The two teams with the highest goal difference, if it should be the same between more than two teams, and the highest total number of goals scored shall play a game of decision as per article 8.7.045. Should this match be drawn, once again the result shall be determined by penalty kicks under paragraph 4.

If and only if more than two teams in this final round are tied on points and the top two teams cannot be determined as described above, then all these teams shall play a game of decision against each other as per article 8.7.045, etc.

The order in which these matches are played shall be determined by draw, as well as the right to serve.

The team with the most points from the games of decision shall be the winner.

If two or more teams are equal in points after the games of decision, then penalty kicks shall determine the winner as per paragraph 4.

In each penalty kick competition the winners shall be awarded three points, and the loser no points. The team with the highest points total shall be the winner.

In the event that the teams are still tied on points the winner shall be the team with the best goal difference of the penalty kick decision and should that not be decisive the team with most goals scored. In the event of a tie further penalty kicks shall be taken until the winner is known.

The teams taking part in the games of decision shall be ranked after the games of decision are completed. The other teams shall be ranked according to points scored, goal difference and total goals scored. Should that method result in a tie, the matches between the tied teams shall be considered. Should that fail to break the tie, a games of decision will be played should the result be critical in determining which team progresses to the next round or is promoted or relegated in a division.

(text last modified on 01.01.23)

- 8.9.011** *World and continental championships / world and continental cups*
During these competitions the procedure in article 8.9.010 shall be followed for all medal places.

Teams not in a medal-winning position shall be classified by points, goal difference and goals scored. If two teams are still tied then the direct result between them shall be counted. If that game was a draw then a game of decision must be played.

(text last modified on 01.01.23)

§ 4 Penalty kicks

8.9.012 In the event that two or more teams have equal points after deciding matches, penalty kicks shall be taken. In the first penalty kick round each player of the team has to attempt two penalty kicks on the opponent's goal.
