Unless otherwise instructed by the organizers, the teams shall be permitted to enter the storage room on Saturday, 10 August, 9:00am. The team storage area is covered by a security guard 24 hours a day until Tuesday, August 27, 12:00 noon.

The key can be collected from the Velodrome main Office, where staff will show you to your allocated room.

It is important that teams only use the rooms allocated to them. Due to space limitations, it will be necessary for some smaller teams to share rooms.

The room must be cleared by Tuesday, 27 August, at 12:00 noon. Ensure that keys are returned after the event. A deposit of RMB100 is required for the key. Lost/unreturned keys will be charged at RMB100 per key.

TEAM PENS

Track centre pens will be available from Wednesday, 17 August at 09:00 am. Team pens are allocated in the track centre considering the size of each team. There are many people in track centre and space is limited therefore teams must keep the area allocated to them. Fire Regulations also insist that some corridors in the track are maintained for emergency evacuation purposes. Teams are reminded that the team storage are used for the storage of equipment not required for competition in that session.

To ensure track centre can be cleared quickly and safely in an emergency, please ensure equipment does not excessively narrow or block walkways.

Access routes to the track must always remain unobstructed. All ramps should remain clear of any material and team personnel.

POWER

Sockets (applicable to UK, US, GER, EU plugs) with 2.5 kW of power, the rated voltage of 220 volts and rated electrical current of 10 amps, enough to charge a smartphone/laptop/small compressor. Please refrain from plugging in extension leads into this socket, nor should kettles, coffee machines, or fan heaters be plugged in, as these devices consume a high amount of power and may lead to a power outage.

Ensure that you bring enough adapters for 10A sockets. Never plug a 2-pin plug into a 10A socket, for it is unsafe and would disrupt the power supply.

RIDER SAFETY

Do not ride your bike indoors at the Luoyang Velodrome Park. Whilst out on the roads, remember we drive on the right-hand side in China and after dark you will require a front and back light fitted to your bike. Red traffic signal lights mean “stop”. If there is a cycle lane on, or an adjacent cycleway beside the main roadway, you must ride on it and not on any other part of the roadway. Ensure you adhere to all road signs and do not ride on the footway this is illegal and may result in a fine.
