## General Information

### City of Santiago del Estero

The host city, Santiago del Estero, is located in the North Center of Argentina, on National Highway RN9 on the river banks of the "Rio Dulce".

It's located about 1.000 km away from Argentina's capital Buenos Aires.

Another important city in Argentina is Cordoba, which is located south of Santiago del Estero about 430 km far by National highway RN9 (south). Cordoba has the International Airport, taking off and landing a lot of international flight from neighboring countries.

In addition to this, also the Tucuman city is near Santiago del Estero, is about 160km far by National Highway RN9 (north)

Santiago del Estero is the older city in Argentina and is the Capital of the province with the same name.

It offers a large number of tourist, historical and religious attractions. The city has received a renewal boost in recent years, new spaces and infrastructures have been created to enjoy and stroll that are worth seeing, especially the new riverside path. It is a recovered space that was abandoned and today we can find a beautiful place to walk or ride a bicycle. The highlight of this walk along the coast of Río Dulce is the elegant new soccer stadium called the "Madre de Ciudades" Stadium. In Santiago del Estero the days are full of sun, but the nights are also full of attractions; there are a large number of pubs, international and regional food, the traditional peñas (regional food and local folk music), a high-level casino, festivals and cultural events that enliven the city's nights.

For more information on Santiago del Estero's events and attractions visit [www.turismosantiago.gov.ar](http://www.turismosantiago.gov.ar)

## Travel & Accommodation Information

### How to get to Santiago del Estero

Santiago del Estero has a domestic airport. This airport has twice daily flights from/to Buenos Aires city.

So, the most common way to reach Argentina is to land in the capital city which is Buenos Aires.

Buenos Aires has an international airport “EZE” called Ministro Pistarini. Also has other airports, and the more important airport in order to get the domestic flight to other cities in Argentina, for example to Santiago del Estero city, is the airport AEP called Jorge Newbery.

The national airline is “Aerolineas Argentina” <https://www.aerolineas.com.ar>

Therefore, we recommend book a domestic flight to SDE airport by Aerolineas Argentinas from Buenos Aires roundtrip.

In the past editions we’ve heard some requests from some BMX teams and some riders regarding the problematic and awkward change of airport in Buenos Aires city, between the international airports EZE to/from domestic airport AEP. Both airports are located in totally different areas of the city, around 2 hs drive distance depending on the traffic conditions in the busy Buenos Aires city.

So, from the Local Organizer Committee received the concept and we went to the Aerolineas Argentinas airline to ask them to make some domestic flights from/to the international airport EZE from/to SDE airport.

Currently, the Aerolinas Argentinas airline offers on its official website some domestic flights departing and arriving to the EZE international airport.

You can see in the following frame which domestic flights are going to depart or land in the international airport EZE to/from SDE airport. We highly recommend booking the domestic flights ASAP in order to avoid the inconvenient change of airport in Buenos Aires.

The Santiago del Estero airport (SDE) that is located only 7 km away from the BMX track.

Moreover, another possibility to reach SDE city, is to get a domestic flight from Buenos Aires (AEP) to Termas de Rio Hondo airport (RHD). The RHD airport is located at 40 minutes drive distance to Santiago del Estero city depending de traffic condition. "Aerolineas Argentina" makes this route from AEP to RHD.

Tucuman has more than 5 regular flights from/to Buenos Aires each day with two airlines. Tucumán airport is located at 2hs drive distance to the SDE city. Tucuman airport has some Rental Car agencies and Bus Companies in order to get transport to Santiago del Estero city.

Other journey possibilities to come to Argentina, from other important cities of South America like Santiago (Chile) or Sao Pablo (Brazil). These cities have direct flights to Cordoba international airport COR located at 5hs drive to the SDE city.

## Shuttle service between the airports in Buenos Aires

In Buenos Aires city, the International Airport Ezeiza EZE and the domestic airport, Aeroparque AEP, are located on different side of the city, with a drive time approximately 2 hours or more depending on traffic conditions.
