

2021 UCI JUNIOR TRACK CYCLING WORLD CHAMPIONSHIPS

Cairo - Egypt

Cairo - Egypt

Egypt is situated at the intersection of three continents , Africa, Asia & Europe, and remains one of the proud ancient civilisations of the world. Linked to two seas, namely the Red Sea and the Mediterranean, it overlooks the Suez and A`qaba Gulfs and has one of the important international waterways, the Suez Canal, in its territory. Egypt places one foot in Asia, although it belongs to the African Continent that has the source the River Nile, artery of life for Egyptians, now and for thousands of years past. As clearly indicated, Egypt enjoys an outstanding geographic location allowing it to serve as the gateway to all regions, through which, the three monotheistic religions passed. For many years, it has also functioned as a meeting point for civilization interaction between east and west, north and south.

Cairo is the vibrant and exciting capital of Egypt. Its metropolitan area, with a population of over 20 million, is the largest in Africa, the Arab world, and the Middle East, and is one of the largest cities in the world. Sitting astride the mighty Nile River, it is an intoxicating mix of the remnants of ancient Egypt and the modern world with all conveniences that anyone could wish for.

Cairo has long been a centre of the region’s political and cultural life and is titled “the city of a thousand minarets” for good reason. Located near the Nile Delta, Cairo was founded in 969 AD by the Fatimid dynasty, but the land composing the present-day city was the site of ancient national capitals whose remnants remain visible in parts of Old Cairo.

The city and country are not just one to be visited, but rather to be experienced. The sights, noises, smells and foods allow the visitor to the country to become immersed in an experience that is both unique and memorable.
