# MERCEDES-BENZ UCI MOUNTAIN BIKE WORLD CUP

## A BRIEF RUNDOWN

THE UCI MOUNTAIN BIKE WORLD CUP HAS A LONG, COLOURFUL HISTORY AND ENJOYS A SOLID FOLLOWING THROUGHOUT THE WORLD. OVER THE YEARS, THE UCI HAS MODIFIED THE FORMAT AND INTRODUCED NEW INITIATIVES IN ORDER TO KEEP UP WITH EVOLVING TRENDS AND MEET THE EXPECTATIONS OF ATHLETES AND FANS.

## EVOLUTION OF THE UCI MOUNTAIN BIKE WORLD CUP

### 1991

It was 24 years ago that two American riders, John Tomac and Sara Ballantyne, became the first winners of the UCI Mountain Bike World Cup. The year was 1991, and the World Cup series comprised nine rounds in seven countries, catering for cross-country Olympic (XCO) specialists only.

### 1993

Two years later the downhill (DHI) format joined the programme, crowning two German athletes this time: Jürgen Beneke and Regina Stiefl. Interestingly, John Tomac, XCO winner in 1991, took second place in the inaugural downhill World Cup as well as second in the XCO.

### 1998 - 2001

1998 was the year that the dual slalom – the forerunner of four-cross – made its debut in the World Cup. Dual-slalom involved knock-out heats with two riders racing on parallel courses, and it featured in the World Cup for four years. American Brian Lopes and Australian Katrina Miller won the overall classification the first year.

### 2002 - 2011

After four years on the programme, the dual-slalom was replaced by fourcross (4X) in which four riders race against each other on a single course. Winner of three of the four

dual-slalom World Cups, Brian Lopes went on to dominate the first year of four-cross. In the women's competition victory went to France's Anne-Caroline Chausson, already winner of the dual-slalom in 2000.

### 2012-2014

Cross-country Eliminator was the next mountain bike format to join the UCI Mountain Bike World Cup, from 2012 to 2014. This spectacular format for XCO specialists sees four competitors race head-to-head over a lap of around a kilometre. Introduced to the World Cup with three events in 2012, six Eliminator rounds appeared in 2013 and 2014 with the overall classifications going to Belgium's Fabrice Mels and Switzerland's Kathrin Stirnemann.

### 2018

2018 sees the addition of cross-country short track (XCC) racing into the overall XCO UCI Mountain Bike World Cup competition. The goal with this new discipline is to continue developing cross-country.

### 2022

Since 2022, the cross-country short track will be a World Cup itself with its own standing and leader jersey.

# INTRODUCTION OF FORMATS

## CROSS-COUNTRY OLYMPIC (XCO)

Cross-country Olympic format races are held over undulating circuits (with technical descents, forest roads, rocky paths and obstacles) of 4 to 6 km, which riders must complete several times. The Elite racing times, for men and women, vary from 1h20 minutes to 1h40. An attractive course design that shows the discipline well on television and is also spectator friendly is a necessity!

## CROSS-COUNTRY SHORT TRACK (XCC)

Cross-country short track is a variation of Cross-country Olympic. The start and finish must be in the same area. The distance of the course must not be more than 2 km with a race duration of 20 to 25 minutes. Natural and/or artificial obstacles are only permitted if their use has been approved beforehand by the UCI Technical Delegate or, in his absence, the president of the commissaires' panel.

## DOWNHILL (DHI)

Downhill is a race against the clock in which the rider negotiates a succession of fast and technical passages. The participant must demonstrate courage as well as sharp technical and piloting skills in order to battle tree roots, rocks, banked sections, bumps, jumps and other natural obstacles along the way.
