- Framesets [List of Approved Models of Framesets](#) see column Disc. = CX
- Wheels [List Approved Wheels ENG](#)

For the 2025-2026 season, this requirement is compulsory for all categories at UCI World Cup events and UCI World Championships.

1.3.031 *Wearing a rigid safety helmet shall be mandatory during competitions and training sessions.*

5.1.059 *For the UCI cyclo-cross world cup and world championships, men elite and women races only, the use of radio-communication from the rider to his/her mechanics is allowed. The use of radio-communication from staff to the rider is forbidden. The use of such a system is subject to any relevant legal provisions.*

- 1.3.025 *Disc brakes are allowed in cyclo-cross training and competition. For races on the road and cyclo-cross, the use of fixed sprocket is forbidden: a braking system that acts on both wheels is required.*
- 1.3.018 *Wheels of the bicycle may vary in diameter between 70 cm maximum and 55 cm minimum, including the tyre. For the Cyclo-cross bicycle the width of the tyre (measured between the widest parts) shall not exceed 33 mm and it may not incorporate any form of spike or stud.*
- 5.1.034 *Personal high-pressure cleaners are forbidden in the pit area during the UCI cyclo-cross world championships, the UCI cyclo-cross world cup and the continental cyclo-cross championships.*
- 1.3.002 *The UCI shall not be liable for any consequences deriving from the choice of the equipment used by licence holders, nor for any defects it may have or its non-compliance. Framesets used must meet all relevant ISO quality and safety requirements for bicycles as well as any other standards applicable in the country of the event."*

12.3 RACE CLOTHING

Wearing of national team clothing is mandatory during the UCI World Championships.

- 1.3.056 *National federations shall submit to the commissaires' panel of events as specified in art. 1.3.059, a sample of their national team clothing for validation. The design, color, place and size of the advertising spaces of the validated equipment must be identical for all athletes participating to the applicable events.*
We encourage you to present to the UCI your national apparels before sending them for final production.
The apparel of the riders of a national team must always be identical to the last sample submitted.
- 1.3.057 *Advertising matter, as detailed in the ["UCI jerseys visual guidelines"](#) brochure published on the UCI Website, shall be used at the national federation's discretion.*
Advertising matter on jersey and shorts may vary from one rider to another.
The design of the jersey and shorts may vary from one category of rider to another.
Additionally, the rider's name may appear on the back of the jersey.
The above measures also apply to other items of clothing worn during competition (rain jackets, etc.).
- 1.3.029 *No item of clothing may hide the lettering on the jersey or the rider's identification number, particularly in competition and at official ceremonies*
The use of net or plastic pocket to hold the bib or arm number on the rider's jersey is prohibited. If such a device exists on the rider's outfit, then the rider will have to pin his numbers above the pocket.

12.4 AWARDS CEREMONY

- 9.1.044 *Within 10 minutes following the end of each race (unless otherwise provided and duly recorded in an official communiqué), the World Champion, as well as the second and the third placed riders shall be ready for the official ceremony that shall be conducted under the responsibility of the president of the commissaires' panel.*
- 9.1.046 *Riders shall appear in racing attire, wearing their national jerseys but bare-headed and without headband or glasses, until they leave the official ceremony enclosure.*
- 9.1.050 *A World Champion may not wear the jersey identifying his title and bearing the regulation advertisement of his main sponsor(s) until, at earliest, the day following that on which he received it.*
- 9.1.051 *Any infringement of the provisions of articles 9.1.044 to 9.1.050 shall be punished by a fine of CHF 2'000 to CHF 10'000 minimum. A higher fine may be imposed depending on the advantage derived from the offence.*

12.5 UCI WORLD CHAMPIONSHIPS NATIONS RANKING

9.2.045 *ter A* ranking by nations for the cyclo-cross world championships shall be drawn up by summing the points of the first three riders from each nation.

The system for awarding points is based on the total number of rider starting in each category. If 100 riders start, the winner will score 100 points while the 100th placed rider would score 1. Should some starters not be given a finishing position, the last rider to be classified shall score the points for his position without taking account of the unclassified riders. Example: if 100 riders start and 80 riders are classified, the last of them will score 21 points.

Nations with three finishing riders shall be ranked first, then nations with two finishing riders and finally nations with one finishing rider. In case of equal points in this classification, the place of the best ranked rider will break the tie.

If one or more riders of one age category take place to the cyclo-cross team relay, then the nation will receive for that age category one bonus of points. The system for awarding points is based on twice the total number of nations starting in the cyclo-cross team relay. If 15 nations start, the winning nation will score 30 points while the 15th placed nation would score 2 points.

That accreditation will be confirmed when the videographer is signing the **"videographer waiver NOT TO FILM any race"** (including warmup, start preparation, start, race, finish arrivals, live flash interview(s) and/or podium).
