Chapter I: GENERAL PROVISIONS

SCOPE

Art. 1

This agreement establishes the standards governing the working conditions of riders employed by a team registered or intending to register with the International Cycling Union (known by the French acronym UCI) as a UCI WorldTeam or a UCI ProTeam under Chapter XV or XVI of Part II of the UCI Cycling Regulations.

It shall be binding for each team in its capacity as employer, in the person of its paying agent (hereinafter referred to as the team), and each rider employed by the team (hereinafter referred to as the rider).

It shall not apply to riders employed by a team but who do not participate in international road races. However, a single participation by such a rider in an international road race during the year of registration shall suffice to make this agreement applicable to him during the whole year.

The stipulations of this agreement shall be added to those of the UCI regulations. In the event of inconsistency, the UCI regulations shall apply.

Art. 2

This agreement shall apply for the year of registration 2024 and the following, without prejudice to Article 10.

The signatories undertake to renegotiate in good faith for the subsequent years, or if no changes are requested, to extend this agreement at its expiry for a further period to be defined.

COMPULSORY FORCE

Art. 3

Any derogation from the provisions of this agreement to the detriment of the rider shall be null and void. Any and all advantages or agreements that can favour the rider beyond the provisions of the present agreement shall remain valid.

DISPUTES

Art. 4

Any and all disputes between the signatories about this agreement shall, at the request of one of the parties, be submitted to the Arbitral Board of the UCI following the procedures provided for in articles 12.7.008 and following of the cycling sport Regulations of the UCI.

A dispute between a team and a rider over their work relationship shall be submitted to the Arbitral Board of the UCI or to the authority specifically designated by the competence clause provided in the contract, provided it is compliant with the UCI regulations. Insofar as the measure or the solution of the dispute depends on the interpretation of this agreement, the different authority to which the dispute is submitted may in any case request an imperative opinion from the Arbitral Board of the UCI.

Under no circumstances may the contract contain a jurisdiction clause regarding disputes between a rider and a team which would designate a tribunal other than the civil court where the rider resides, the arbitral tribunal of the rider's federation, the Arbitral Board of the UCI or the CAS.

Art. 4 bis

In any case, either party may, regardless of an eventual consent from the other party(ies) involved in a dispute over their work relationship, preliminarily contact a designated mediator registered on a public list of mediators agreed by the CPA and the AIGCP. The selected mediator, within 90 days from receipt of the mediation request, will submit a mediation proposal to the parties. The parties shall maintain full discretion as to whether they accept the mediation proposal and, if so, the mediation agreement shall have the effect of a binding contract between the parties. The mediator may at any time close the mediation proceedings and give formal authorisation to the parties to start ordinary proceedings in compliance with their contractual agreement, without prejudice to a party's right to do so at an earlier stage as the case may be according to the legislation applicable to the contractual relationship.

In any case, the mediator shall draw up a summary of the mediation proceedings, including the arguments put forward by the parties, either in the mediation proposal or the termination order, as the case may be.

The consultation before the mediator shall be free for the parties and all related costs shall be borne by the CPA and the AIGCP.

Hiring shall take place by means of an individual contract concluded by and between the rider and the team.

The contract shall be drawn up in writing by means of a form corresponding to the sample contract

agreed by and between the signatories and approved by the UCI as an insertion in its regulations as a standard contract.

Contracts shall be drawn up in at least 3 copies:

- 1 for the team;
- 1 for the rider;
- 1 for the auditor approved by the UCI.

The contract shall be typed. Each page shall be numbered and shall indicate the total number of pages in the contract. The rider and the paying agent shall sign each page of the contract.

Clauses of the contract on a page which has not been signed by the rider may not be invoked against him; the rider may take advantage of them.

TERM AND END OF THE CONTRACT

Art. 6

Contract shall be for a specified period ending on 31 December.

It follows that in terms of the nature of the contract, it can never be interpreted as permanent or of an indefinite duration.

2. The status of new professional ends:
 - a. If the contract comes into force before 1 July: on 31 December of the subsequent registration year;
 - b. If the contract comes into force after 30 June: on 31 December of the second subsequent registration year.

During this period the rider shall retain the status of new professional even if:

- a. The rider reaches the age of 26 during this period;
 - b. The contract is terminated early and the rider changes team.
3. If, at the time that the new professional's contract comes into force, the remaining term of the contract between the paying agent and the principle partner or contracts between the paying

agent and the two principal partners is less than the duration of the contract as determined under the first paragraph of point 2 above but equal to at least one year, the duration of the new professional's contract may be limited to the remaining duration of the contract with the principal partner or the longer of the contracts with the two principal partners.

If, on expiry of the contract between the paying agent and the principal partner or the contracts between the paying agent and the two principle partners, the team continues its activities or the paying agent continues its activities in another team, he must reemploy the rider at that rider's request for at least one year and under conditions which may not be less favourable to the rider.

(text modified on 01.01.13)

If a Team is collecting Personal Data from a Rider directly, it must include the following information in its Privacy Notice:

- the identity and contact details of the Team, its representative, and its Data Protection Officer, if appointed by the Team;

- > Important: the content of a Privacy Notice is not intended to regulate the legal aspects of possible commercial agreements concerning the management of Riders' image rights.

IV. What may be the purposes of Personal Data processing by Teams?

Purposes of processing may include the followings:

- A) ***Purposes connected with and instrumental to the management of relations with the Riders, with reference to the sports activities carried out by reason of membership to the Team, in particular.***

V. What may be the Legal basis of the Processing by Teams?

For the purposes referred to in Point IV, letters A and B, the legal basis of the Processing may be:

- in relation to ordinary data: (i) the need to execute the contract relating to sporting services stipulated between each Rider and the Team and/or the formalities relating to the registration of the Rider; (ii) the legitimate interest of the Team, as Data Controller;
- in relation to special data (e.g. personal data disclosing health, including so-called “performance data”) by the express consent given by the Rider.

For the purposes referred to in Point IV, letter C, the legal basis of the Processing may be the fulfilment of legal obligations, the express consent of the Rider and the legitimate interest of the Team, as Data Controller, and of any possible Joint Controller.

For the purposes referred to in Point IV, letters D, E, F and G, the legal basis of the Processing may be the explicit consent given by the Rider.

Where the legal basis is the consent of the Rider, the Team will ask the latter to express or deny his/her consent to the Processing, on specific forms related to the individual purposes².

VI. How is the Provision of Data and Consent to Processing regulated?

The provision of Personal Data and Consent to the processing for the purposes referred to in Point IV, letters A, B and C, may be indispensable for the execution of the contractual relationship between the Team and the Rider, in compliance with current regulations and participation in sporting activities. Therefore, the lack of data conferment will result in the impossibility of its execution. Consent for the purposes set out in Point IV, letters D, E, F and G may be optional.

VII. What information must Teams provide as to the modalities of Processing?

Personal Data may be processed using manual, computerised and telematic tools with logic strictly related to the purposes and, in any case, in such a way as to guarantee the security and confidentiality of the data in accordance with current regulations. The Data may be processed by the Team's staff and/or collaborators, all of whom must be specifically instructed and authorised to process the data. For the processing of data, the Team may make use of third parties, appointed as "Data Processors", pursuant to Art. 28 GDPR, the list of which should be made available upon request by the Rider.

VIII. What information must Teams provide as to the Processing by other recipients?

In some cases, the performance of the activities connected with and/or instrumental to the management of the contractual relationship with the Rider - and in general to the latter's membership of the Team - entails the disclosure of Personal Data, including special categories of Data (e.g. Data disclosing health status) to persons whose right to access them is recognised by law or is necessary to ensure participation in sporting activities and their regular performance.

These recipients may include:

- consultants entrusted with the performance of legal and/or tax activities;
- companies entrusted with the verification and preservation of certificates of sporting medical fitness;

² On the subject, Art. 7 GDPR ("Conditions for consent") states the following: "(1) Where processing is based on consent, the controller shall be able to demonstrate that the data subject has consented to processing of his or her personal data. (2) If the data subject's consent is given in the context of a written declaration which also concerns other matters, the request for consent shall be presented in a manner which is clearly distinguishable from the other matters, in an intelligible and easily accessible form, using clear and plain language. Any part of such a declaration which constitutes an infringement of this Regulation shall not be binding. (3) The data subject shall have the right to withdraw his or her consent at any time. The withdrawal of consent shall not affect the lawfulness of processing based on consent before its withdrawal. Prior to giving consent, the data subject shall be informed thereof. It shall be as easy to withdraw as to give consent. (4) When assessing whether consent is freely given, utmost account shall be taken of whether, inter alia, the performance of a contract, including the provision of a service, is conditional on consent to the processing of personal data that is not necessary for the performance of that contract".

- third-party organisers of sporting events;
- third-party companies to which the organisers have entrusted technical and logistical services for the management of sporting events (such as, for example, timekeeping services, classification management services, race secretariat management services, race registration management services, etc.).
- judicial and police authorities or other public administrations for the fulfilment of regulatory obligations;
- local and/or international federations.

Depending on the case, the subjects belonging to the categories to which the Data may be communicated will process the Data and use them, as the case may be, in their capacity as autonomous Data Controllers, Joint Data Controllers, Data Processors expressly appointed by the Data Controller and/or in their capacity as sub-processors appointed by the Data Controller.

Subject to the specific consent of each rider, which is not compulsory, the Data may be disclosed to companies and enterprises for commercial purposes or for carrying out market research or interactive commercial communication or fundraising and sponsorship.

IX. What other information must a Privacy Notice contain?

A Privacy Notice must also contain information regarding the following additional aspects:
