3.4 TEAMS STORAGE AREA

Teams will be allocated storage containers based on the number of riders they have entered. The containers are located near to the parking sport, as indicated on the map TBP, and are equipped with lighting. Night security will be in the team containers area starting Friday, October 17th.

If teams arrive before the event, they should contact santiago2025track@ind.cl.

Teams can access the storage compound **from Thursday, October 16th**. The Team Containers Coordinator will meet each team upon arrival and lead them to their designated container. It is crucial that teams only use the container assigned to them, as some smaller teams may have to share containers due to space constraints and the number of teams entered.

A security deposit of U\$50 in cash per key is required. Teams must sign their keys back in by 12:00 h on Monday, October 27th, at the latest.

Lost or unreturned keys will result in a charge of U\$50 per key. The deposit will be refunded once the team container has been inspected and left in the same condition as when it was issued. If the team container sustains damage, the deposit will not be refunded, and additional repair costs may be incurred.

3.5 TEAM BOXES

Infield boxes are available from Saturday, October 18th. The velodrome will be open from 07:00 until 20:00. Team boxes are allocated in the infield, considering each team's size. Due to the large number of people in the track centre, space is limited. We kindly ask you to keep to your allocated area.

A warm-up tent with extra team boxes with the same structure as the infield will be set up outside, near the ramp entrance of the velodrome and will provide extra space for teams with a larger number of riders, due to the limited space inside the velodrome.

Fire Regulations insist that corridors in the track centre be maintained for emergency evacuation purposes. Please ensure that equipment does not excessively narrow or block walkways to ensure the track centre can be cleared quickly and safely in an emergency.

Team boxes will have one table and enough chairs. No furniture is to be removed from the allocated box or chained up.

Power supply in the team boxes

Team boxes will be powered with 220-230V. The venue requires that all electrical equipment meet Chilean standards to meet safety requirements. Teams must have all appliances tested and tagged by a qualified electrician. Please do not plug extension leads into this socket or kettles, coffee machines, or fan heaters, as they use high power consumption and may cause the supply to fail.

3.6 TEAM CHANGING ROOMS

Male and female changing rooms and shower facilities are available at the ground level. Restrooms will also be available near the warm-up tent.

3.7 TEAM PERFORMANCE ANALYSTS

An area for Performance Analysts at the backstraight will be provided. However, availability is limited. Teams wishing to use this facility must book their positions through the email: santiago2025track@ind.cl

This service will be charged at U\$100 per cable, to be paid on site.

Please note: Bookings will be made on a first-come, first-served basis.
