The design, colour, location and size of the advertising spaces on the validated clothing must be identical for all athletes taking part in the events.

The clothing of the riders of a national team must always be identical to the latest sample submitted.

Riders of the same national team must wear identical shorts/pants during the same event, with the exception of the advertising spaces included in a 9 cm wide side band, which may differ from one rider to another. This means that the National Federations must also provide their riders with national shorts/pants.

Team managers must therefore present the national jersey and the national shorts/pants to the Commissaires' Panel at the riders' confirmation .

The national jersey is compulsory for all riders.

1.3.057 Advertising matter, as detailed in the "UCI jerseys visual guidelines" brochure published on the UCI Website, shall be used at the National Federation's discretion.
[UCI jersey graphic guidelines.](#)

Advertising matter on jersey and shorts may vary from one rider to another.

The design of the jersey and shorts may vary from one category of rider to another.

Advertising on protective leggings worn for downhill mountain bike, trials and BMX Racing events is not subject to the advertising restrictions on shorts.

Additionally, the rider's name may appear on the back of the jersey.

The above measures also apply to other items of clothing worn during competition (rain jackets, etc.).
