GRETA THUNBERG ENVIRONMENTAL ACTIVIST

Greta Thunberg is an environmental activist who has challenged world leaders and inspired the next generation of climate champions with her actions and words.

Her work has shown that you CAN make a difference, no matter how old you are.

Greta Thunberg proved that one brave voice can be the start of something big!

BRAVE STANCE

Born in Stockholm, Sweden, Greta was only 15 when she bravely stood on strike by herself outside the Swedish Parliament holding a sign that said "School Strike for Climate." Greta wasn't alone for long. Students around the world soon joined her in calling for better protection for our planet — which became known as the "Greta Effect."

INSPIRING VOICE

Greta challenged world leaders at the 2019 UN Climate Action Summit to stop just talking about protecting the Earth — and actually do something! In a stirring speech about the politicians' lack of action about climate change, she famously asked, "How dare you?"

Greta has inspired millions of young people to stand up, speak out, and get involved in important political issues, most importantly climate change. Today (and every day!) join us as we celebrate the life and work of Greta Thunberg!
