## A Message from NETA on COVID-19

March 16, 2020

Dear NETA Patients and Customers,

As we continue to monitor COVID-19 in our communities, Governor Baker has issued an executive order prohibiting gatherings of over 25 people and on-premise consumption of food and drink at bars and restaurants throughout the commonwealth from Tuesday, March 17 until April 6, 2020.

In order to comply with the Governor's order and maintain adequate social distancing while ensuring access to cannabis for medical patients, **NETA Brookline will be open for MEDICAL PATIENT PURCHASE ONLY starting on Monday, March 16 at 10am. All Medical Patient orders must be made through Reserve Ahead.** Adult Use purchases are temporarily paused while we assess our operations and make adjustments to maintain 6' social distance between our staff, patients and customers.

Per orders from the Town of Brookline, our line will be limited to no more than 10 patients at a time with a distance of 6' between patients strictly enforced.

At this point in time, **NETA Northampton** will remain open for both medical patients and adult use customers on a Reserve Ahead only basis. This may change in the coming days or weeks, and we will update you with more information as it becomes available.

As you can imagine, this was a difficult decision that we did not take lightly. We are working to preserve access to cannabis for as many as possible during this uncertain time and hope to re-open for adult use customers in Brookline soon. The health and wellbeing of our staff, customers, and patients is paramount, as is promoting and protecting public health.

Please practice social distancing wherever you may be in the days to come, wash your hands, and take care of one another. Again, we kindly ask that you do not visit our dispensaries if you are showing signs or symptoms of COVID-19 or think you may have been exposed.

Information on what else we are doing regarding the current coronavirus situation to ensure your well-being is available below.

We appreciate your understanding and cooperation and we will keep you posted on any developments as this unprecedented health care crisis is evolving. Please visit [netacare.org](https://netacare.org) and follow [@netacaremass](https://twitter.com/netacaremass) on twitter for the most up to date information.

With care,

The NETA Team
