

2024 APPLICATION GUIDE

THE LAWTECH HUB

The first of its kind in Australia, the LawTech Hub helps lawyers and entrepreneurs to come together to design and build transformative legal technology.

Technology is driving rapid change throughout the legal profession and you could be at the forefront. Accelerate your success by applying to be a LawTech Hub resident, driving the future of legal sector innovation.

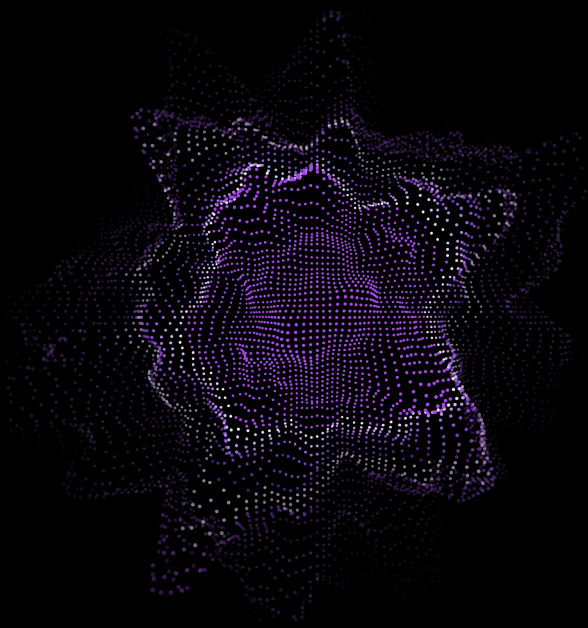

HOW IT WORKS

Each year, the LawTech Hub invites individuals, teams or businesses who have bright ideas for the future of law to participate in a highly-focused program that provides founders with the tools, frameworks and support to achieve success, while avoiding common traps.

Unlike other programs, founders retain all IP to their business or solution, and the LawTech Hub does not own an equity stake in the business.

- Duration: Six months
- Location: Physical — in Australia across three cities: Melbourne, Sydney and Brisbane; and virtual for remote and international participation

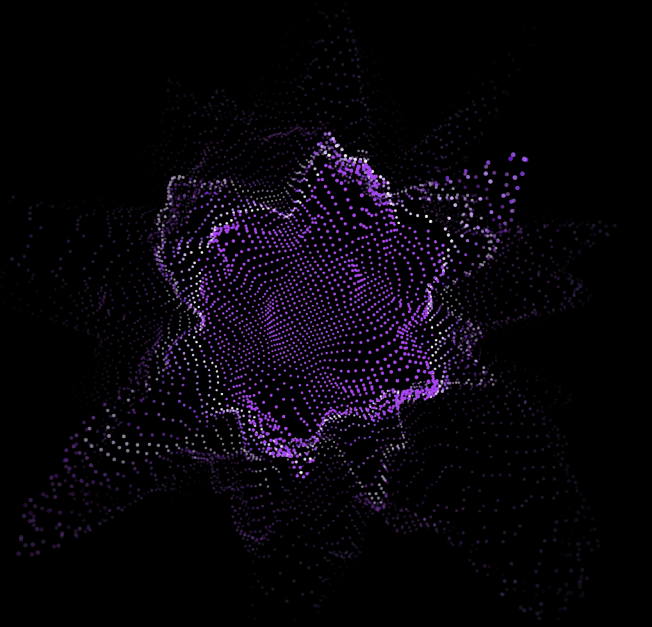

PROGRAM OVERVIEW

The LawTech Hub program focuses on supporting startups and scaleups in their pursuit of creating new and innovative technology for the legal industry.

It represents a unique opportunity for startups to collaborate with Lander & Rogers' lawyers and business specialists, while forging connections with the firm's clients and global-reaching networks.

Please visit the [LawTech Hub](#) on the Lander & Rogers website for more information.

AI PROGRAM: STARTUPS & SCALEUPS

This structured program provides the guidance, tools and resources required to design, test and scale your business tool, product or solution.

The program is designed to maximise the time spent on product developing, refining and testing, with several phases to support your progress.

The LawTech Hub also provides business support expertise to accelerate startups and scaleups' strategic objectives and strengthen business operations.

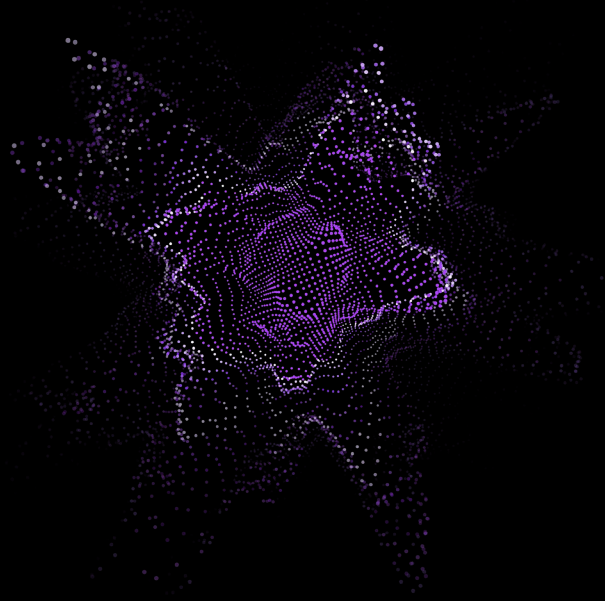

The 2024 program will focus on startups and scaleups developing AI solutions.

PROGRAM BENEFITS

Starting a new business venture or program can be challenging, even for the most experienced entrepreneurs. Evidence shows that businesses that seek advice and leverage support are more likely to succeed in the long run.

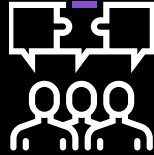

The LawTech Hub program offers opportunities for collaboration; access to mentors, legal tech entrepreneurs and other residents; continuing alumni support and more.

ACCESS ADVICE

Access coaching from mentors and advice from industry experts and program alumni with real-time feedback from clients, lawyers and technical teams.

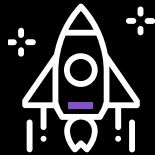

GROW YOUR NETWORK

Build your community including LawTech Hub resident peers, potential customers, investors and venture capitalists.

FAST-TRACK YOUR IDEA

Scale your product or solution faster with access to new clients, industries and sectors.

EQUITY-FREE SUPPORT

Reap the rewards of your hard work by retaining full equity in your business, program or idea.

COLLABORATION

Work with other legaltech entrepreneurs and gain access to tools and resources to support your growth.

BUSINESS SKILLS

Learn the fundamentals of operating a business including finance, operations, legal compliance, marketing and more.

LAWTECH HUB ALUMNI

Learn about our LawTech Hub alumni companies on the [LawTech Hub website](#).
