

# ORKIN® BED BUG CONTROL

Bed bugs can appear in nearly all commercial spaces with the potential to invade your business, damage your reputation and impact your bottom line.

Orkin® knows that quick detection and appropriate treatments are necessary to help ensure a bed bug problem doesn't get out of control.

## Conventional Treatment

- ◆ Successful at every level of bed bug activity — from introduction to infestation.
- ◆ Utilizes a customized combination of vacuum removal, insecticides and furniture encasements.
- ◆ Service is guaranteed for 30 days.\*
- ◆ Targets areas to treat existing bed bugs and help combat future ones.
- ◆ Your Orkin Pro™ will conduct a follow-up inspection up to 10 days after treatment.
- ◆ An efficient, discreet and cost-effective option.

## OrkinHeat®\*

- ◆ A heat-based option that works on all bed bug life phases.
- ◆ Can effectively penetrate through soft materials that may have otherwise been unsalvageable.
- ◆ Raises ambient temperatures to a lethal level for pests.
- ◆ Setup and treatment is usually complete in one day.

## Orkin Bed Bug ProAct®

- ◆ Our proactive, ongoing approach to bed bug control designed specifically for the hospitality industry.
- ◆ Uses our proven bed bug treatment protocols to create a customized defense plan.
- ◆ Includes documentation of all services performed for a full record history.
- ◆ Staff trainings available for your team to learn how to identify the first signs of bed bug activity.

## Bed Bug Canine Inspections

- ◆ Utilizes highly trained dogs to detect bed bug scents through all life phases.
- ◆ Canines can inspect areas that are hard to reach for humans.
- ◆ More reliable than visual inspections alone.
