

ORKIN[®] MOSQUITO CONTROL

Mosquitoes aren't just a nuisance. With rising average temperatures, they're showing up earlier, in greater numbers, and lingering into the fall. As transmitters of diseases like Dengue fever, West Nile, Zika virus and more, treating them early is more important than ever. Orkin's[®] Integrated Pest Management (IPM) approach includes customized and comprehensive mosquito services:

Mosquito Control Service

- ◆ Treats existing mosquitoes with a targeted application.
- ◆ Recommends exclusion and habitat modification methods to help keep mosquitoes away from your building.

Orkin Eclipse[™]

- ◆ Environmentally conscious traps made of recycled materials and fugal-based larvicides to target certain mosquitoes. Ask your Orkin representative for more details.
- ◆ Monthly services and remains effective after rain.
- ◆ Discreetly reduces mosquitoes by blending into shrubs.

Orkin's IPM Approach:

Inspection. Evaluation of your property for any potential mosquito breeding sites.

Treatment. Recommended treatment is applied and, if applicable, recommended equipment is installed to help reduce and prevent mosquitoes.

Consultation. Provide you with a customized mosquito control program.

Monitoring. Ongoing inspections of your property to ensure your program is the most effective.

Mosquitoes are Bad Business.

Contact Orkin to partner with the gold standard in pest control.
