ORKIN® BED BUG ENCASEMENTS

Bed bugs can hitchhike into virtually any space, multiply quickly and can be hard to spot. An ongoing, proactive approach is the best way to help reduce the threat of bed bug infestations.

That's why, in addition to our bed bug inspections and treatments, Orkin® offers a variety of furniture encasements – to help prevent a bed bug infestation and help stop an existing infestation from spreading.

Encasements:

- ◆ Are made of soft to the touch, comfortable stretch fabric and breathable laminate.
- ◆ Utilize our BugGuard™ zip tie and Velcro® closure system to fully surround furniture.
- ◆ Offer long-term protection for a low up-front cost.
- ◆ Help reduce available areas for bed bugs to nest and lay eggs.
- ◆ Help reduce exposure to irritants like dust mites, pet dander, pollen, mold, microtoxins and other common allergens.
- ◆ Are waterproof and fire-retardant barriers.

Types of Encasements:

Mattress

Box Spring

Pillow

Crib

Sofa

Loveseat

Recliner

Don't Let the Bed Bugs Bite.
