

A wager at a casino is often decided by luck. However, there's one aspect of a casino that you don't want to leave to chance – your pest management. Your casino's reputation and your investment to create a great experience for your guests can quickly fall flat if you experience a pest management failure.

Lucky for you, Orkin is here to help ensure that your guests have a great experience at your property. As one of the most trusted pest management providers in North America, Orkin has unparalleled experience in the pest control business. Plus, we couple our pest experience with extensive knowledge of the hospitality and casino industry to help make sure pests aren't guests at your establishment.

Rodents, cockroaches and other pests enjoy easy access to casinos and the food, water, shelter and optimal temperatures that casinos provide:

- **Easy Access** The steady, round-the-clock foot traffic in and out of casinos gives pests ample opportunity to get inside. Pests can enter through windows, vents, plumbing, cracks or holes in walls and floors, or via supplier deliveries.
- **Water Sources** Pests require water daily, which means leaking water fountains, restrooms, faulty drains, condensation from air conditioning systems and other types of plumbing are attractive breeding grounds.
- **Food Sources** Even minor sanitation mishaps provide adequate food for pests. Cockroaches will eat almost anything — from hair to glue used in cardboard boxes.
- **Harborage Points** Rodents, cockroaches and other pests seek living spaces that are small and dark. Little cracks and crevices throughout your establishment can provide breeding and living areas for pests.

ASSESS. IMPLEMENT. MONITOR. The Orkin way to keep pests in their place.

Effective pest management is a process, not a one-time event. Orkin's proprietary approach is a collaborative, ongoing cycle of three critical activities that help keep pests in their place. The threat of pests is always present – but Orkin is always ready. We have more than a century of experience, the industry's best training, and environmentally responsible methods.

ASSESS

First we inspect, identify, and evaluate all the underlying reasons pests infest your establishment.

IMPLEMENT

Cookie-cutter pest management solutions are ineffective. Your Orkin Commercial Pest Specialist continually works with you to develop a customized solution to suit your unique needs.

MONITOR

Year-round monitoring, documentation, and communication help to ensure the ongoing effectiveness of your service.

Bed Bug Training & Service

Travel habits and other factors have increased the risk of bed bugs in recent years. When you become an Orkin customer, at no cost to you, we can share our award-winning training expertise with you and your staff through free training materials and free, in-person training sessions. If you suspect an existing bed bug infestation, our aggressive bed bug treatment strategy includes a comprehensive inspection and treatment of infested, potentially infested and surrounding areas. Orkin will conduct follow-up inspections to make sure the treatments were successful.

In addition to our pest management service, Orkin offers a wide range of services, including SafeShield for your foodservice operation, bird service, bathroom care/odor control, Orkin Actizyme™ professional cleaning solution, rodent control, mosquito control and termite service.

LEED Compliant

A relatively easy way to make your property environmentally friendly is to reduce the environmental impact of your property's indoor pest control efforts. Since Orkin practices a strict IPM protocol, we will help you uphold required standards and can help you achieve LEED Certification.

Satisfaction

There are five simple reasons casinos and other businesses choose Orkin – we're trusted, reliable, flexible, consistent and secure. Plus, we back our casino service with a Quality Assurance program and an unsurpassed service guarantee to ensure our pest management service meets our high standards – and your own.

**Don't leave your pest management to chance.
