

EVERY YEAR, TERMITES CAUSE MORE THAN \$5 BILLION IN DAMAGE TO HOMES AND COMMERCIAL FACILITIES ACROSS THE U.S.

LARGE STRUCTURE SUBTERRANEAN TERMITE PROTECTION

Subterranean termites may be small, but the cost of an infestation can be huge, especially for large structures. Expansive floor space may hold more than just merchandise – a 50,000-square-foot lot can support multiple colonies, each of which may contain up to a million termites.

You need cost-efficient solutions that work quickly. That's why Orkin offers a subterranean termite service tailored to the specific needs of large commercial structures. With some of the most advanced equipment and one of the best training programs in the industry, Orkin Termite Specialists are the most qualified to help protect your business.

Why You Need Orkin Termite Protection

Financial Impact

Subterranean termites cause more than a billion dollars in damage each year and can literally eat away at your profits by attacking your business's structure, raw materials and inventory. A termite infestation can also disrupt operations, costing you customers and considerable lost revenue if your business is closed for treatment.

Constant Risk

Your business can provide the ideal combination of warmth, food and moisture for subterranean termites, which can enter through cracks as small as 1/32 of an inch (about the thickness of a business card). Major systems, such as plumbing, installed in most businesses today can often allow termites to live year round.

Unseen Threat

You can't always see termites because they feed undetected. Subterranean termite workers can attack wood from the inside out, 24 hours a day. Infestations can go undiscovered until the wood is almost completely destroyed, at which point the cost to repair or replace the damage can be extensive.

Targeted Treatment

If subterranean termite activity is found, Orkin will target treatment to the affected area 20 feet in each direction and five feet on all intersecting walls. We will also perform a comprehensive inspection of your entire property for subterranean termites once a year.

PEST CONTROL DOWN TO A SCIENCE.™

LARGE STRUCTURE SUBTERRANEAN TERMITE PROTECTION

Comprehensive Treatment

EFFECTIVE

Orkin offers simple, direct treatment methods that get to the root of your subterranean termite problem.

CUSTOMIZED

Based on a comprehensive inspection, Orkin will recommend the most effective termite treatment option for your business.

EFFICIENT

Treatments provide ongoing protection to fight current subterranean termite activity and help prevent further infestations.

Ongoing Protection

We provide you with peace of mind, quality assurance and a dedicated team of experts to help ensure your complete satisfaction with Orkin's Large Structure Subterranean Termite service.

- **Quality Assurance Inspection.** A member of our quality systems team inspects your business after your initial subterranean termite treatment to ensure that it meets our consistent, high quality standards.
- **Ongoing Inspections.** We evaluate your facility once a year, or as requested, to ensure a re-infestation has not occurred.*
- **Re-Treat Guarantee.** If subterranean termites return to the area(s) that have been treated, we'll re-treat at no additional charge. And, this guarantee will not be canceled by Orkin as long as you meet your customer obligations.*
- **Money-Back Guarantee.** Orkin Termite Protection provides you effective, ongoing termite protection for peace of mind now and in the future. If you're not completely satisfied, we guarantee to refund your initial treatment charge and any prepaid renewal.*

**See agreement for details, terms and limitations.*
