MEMORY CARE | RESPIRE CARE | HOSPICE CARE

LIVE & THRIVE YOUR WAY.

A community created to provide
CONTINUITY *to your lifestyle*

At Presbyterian Village North, we're proud to be such a close-knit, vibrant place to live. Our community was designed not just to offer every level of living and high-quality care our residents need, but to create opportunities for residents to live and thrive their own way each and every day.

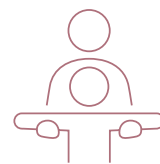

Sophisticated apartments and freestanding homes offering a range of floor plans and maintenance-free living spaces.

Residential assisted living with personalized services that help residents continue to thrive and enjoy life.

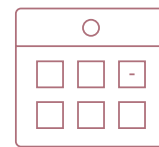

Certified memory care for Alzheimer's and other dementias promotes daily activity, interaction and a deeper sense of confidence and joy.

Transitional Rehabilitation Center featuring advanced therapies and short-term skilled care for post-operative and illness recovery.

Comprehensive, 24-hour custodial nursing care in private suites.

Professional respite care for seniors, giving short-term relief for family caregivers.

Caring hospice services that help families and friends make the most of every moment.

INDEPENDENT LIVING is all about offering services and amenities that free

your time, such as our on-site clinic and pharmacy, so you can focus on pursuing hobbies or projects, spending time with family and friends or whatever makes your days brighter. Plus, you'll enjoy the reassurance that every level of living is already in place for your future.

ASSISTED LIVING at Presbyterian Village North blends the active social

life within the community with individualized assistance with daily tasks that adapts as the needs change over time. From residential services to varied dining and activity programs, our goal is to help each resident engage with others and grow daily.

MEMORY CARE continues and intensifies specialized services in an environment that encourages and celebrates individual choice and accomplishments. Our certified care includes advanced protocols for all stages of Alzheimer's disease and other dementias and is designed to help bring meaning and purpose to every moment possible.

LONG-TERM NURSING CARE offers residents unmatched 24-hour care from a skilled team of licensed nurses, certified nursing assistants and physicians specializing in geriatric care. Our private rooms and varied individual and group classes offer an unparalleled experience for residents and their families.

RESPITE CARE is designed to offer seamless, high-quality care for times when caregivers need to balance other obligations or simply take a vacation. Our respite program includes meals, housekeeping and customized care based on the individual's needs.

HOSPICE CARE is an important part of our commitment to supporting our residents throughout their entire lives. Faith Presbyterian Hospice, part of our Forefront Living family, is a recognized leader in caring for the emotional, physical and spiritual needs of both patients and families and helping them make the most of a difficult time.

Comprehensive REHABILITATION SERVICES

Our in-house skilled therapy teams and programs offer a wealth of options for effective rehabilitation, from inpatient and outpatient programs to short-term programs for post-operative recovery. With a low patient-to-nurse ratio and individualized care from physical therapists, wound care specialists, psychologists, speech and occupational therapists and more, we deliver personalized care that means shorter stays and better outcomes.

OCCUPATIONAL THERAPY

- Programs to increase memory, orientation and cognitive integration
- Adaptive techniques and equipment to overcome physical disabilities
- Strength and coordination exercises
- Programs to help with dressing, bathing, eating and grooming

PHYSICAL THERAPY

- Aquatic therapy with HydroWorx 3500 pool and underwater treadmill, used by NASA, US Navy SEALs and the NBA's Dallas Mavericks
- Training in mobility, gait stability, posture and positioning
- Exercise programs to increase muscle function, coordination and endurance
- Joint and soft tissue mobilization to increase range of motion
- Wound care and pain management

SPEECH THERAPY

- Recovery of speech, language and memory skills
- Verbal and nonverbal communication, including programs for hearing-impaired
- Oral strength and functioning to benefit speaking and swallowing
- Dietary recommendations

SHORT-TERM REHABILITATION

The Transitional Rehabilitation Center was created to help you transition from hospital to home after surgery or illness. This unique program combines personalized care plans, advanced rehabilitation therapies, certified therapists, 24-hour skilled nursing availability and state-of-the-art equipment.

Specialized PROGRAMS

-
- Individualized stroke recovery programs
 - LSVT treatment for Parkinson's disease
 - Certified lymphedema treatment
 - PRN respiratory therapy services
 - Bariatric therapy
