

# Here's a reason to smile

We believe everyone deserves a smile they love. That's why we're partnering with online orthodontic vendors. With our provider network, you'll get access to convenient, affordable and new orthodontic solutions.

## Save money while getting the care you need

You'll get access to affordable and convenient care while enjoying an overall improved, simple experience. And all along the way, you can count on us for support.

## Watch the savings add up

Traditional teeth straightening solutions typically cost between \$5,000 and \$9,000.\* But these new orthodontic options, on average, cost less. And they work faster than braces or other treatments.

### Your way to a healthy, affordable smile

#### Accessible

From traditional wire brackets to invisible aligners, our network offers a variety of online options.

#### Convenient

You can have supplies delivered directly to your home.

#### Certified

Providers oversee remote treatment management and guidance from beginning to end. So you can avoid going for in-person appointments.

#### Affordable

You may pay about one-quarter the cost of traditional braces.
