Considering surgery? Know your options.

Many common conditions have more than one effective treatment option, yet patients are often presented with only one choice.

If your doctor recommends elective lower back surgery, hip or knee replacement, weight loss surgery or hysterectomy, you may qualify for a **\$400 prepaid card*** just for learning more about your treatment options.

CVS Health is pleased to offer this valuable benefit at **no cost** to colleagues and dependents on the Aetna medical plan.

*To be eligible, engage with a Medical Ally for one of the elective surgeries above and complete a survey. You must start the program at least 30 days before a planned surgery date. Emergency procedures do not qualify for the incentive, and other restrictions may apply. Prepaid Mastercard® issued by MetaBank®, Member FDIC. Card terms apply. Card is courtesy of Alight Solutions; awards may be taxable.
