

Common New York

Coliving

Our homes come fully furnished, with laundry, utilities, household essentials, weekly cleaning, WiFi, and more covered in one all-inclusive rate.

Members

Our members are made up of teachers, chefs, social workers, and engineers, whose interests span travel, exercise, cooking, and exploring all the city has to offer.

Why Common?

Common was founded to solve a problem so many of us face: finding a great place to live in a city is time consuming, cost prohibitive, and often requires sacrificing essential elements that provide for happiness in your home. Common simplifies all of those factors. We offer convenience, comfort, community, and an exceptional value, with beautiful furnished private bedrooms within shared suites, so you don't have to sacrifice a single thing. This is, quite simply, city living made better.

How it works

1. Apply on our website

The application process is easy and can all be handled online. Fill out the application form on our site and chat with our team for more details on availabilities.

2. Take a tour

If you're local to the area, you can go for an in-person tour, or if you're remote, we can tour with you virtually. At that time, you can reserve the room with a fee.

3. Sit back and enjoy

Your membership at Common means that for one all-inclusive rate, you get: a private fully furnished bedroom, a furnished shared suite, weekly cleanings, laundry on-site with all laundry essentials, utilities, household essentials, WiFi, and much more.
