## Why Bigger is Better:

Sure, Magnums (1.5L bottles) are inherently impressive, but they also keep wine younger and fresher.

Since there is less overall exposure to the effects of oxygen (through the cork), the aging process of wine in a magnum takes around 1.5 times longer than in a .75L bottle.

So tonight, go big

## The List Breakdown

Our wine list focuses on growers and small producers who are committed to organic, biodynamic, sustainable, or la lutte raisonnée practices.

Most importantly, we feel that wine should be delicious and speak of a sense of place.

Whether you're looking to spend \$50 or \$1,000, our sommeliers would love to help you find your new favorite bottle.
