HAVETS BOBLER**

KIRKENES, NORWAY

1 300 NOK

Havets Bobler is our adventure into the world of sea-aged wine. Each bottle has been matured under the stormy sea surface on the coast of Finnmark at 70° North. In the cold waters along the world's finest coastline, above the Arctic Circle, is now the world's northernmost undersea wine cellar. The naturally dark light conditions, stable temperature and pressure provide optimal conditions for maturing sparkling wine.

To create our new sparkling wine, we have partnered with Rathfinny Wine Estate, a family-run winery near Alfriston in Sussex, England. The young and ambitious winery was established in 2010 by Mark and Sarah Driver, dedicated to producing some of the world's finest English sparkling wines. As well as producing award-winning sparkling wines, Rathfinny shares our sustainable approach and even became the first sparkling wine producer in the world to achieve B Corp status.

The vineyard is located on the south-facing slopes of England's South Downs, where the warm climate, the chalky soil and the location near the sea provide the conditions for high-quality English sparkling wine. They benefit from a long, slow growing season that allows them to extract wonderful flavours from the grapes.

Havets Bobler is a Classic Cuvée that is hand-harvested and made using the traditional method from the classic champagne grapes: Pinot Noir, Pinot Meunier and Chardonnay. A limited number of bottles have been produced exclusively for Hurtigruten and are the first sea-aged wine in Arctic waters. Havets Bobler is therefore a unique product and provides a culinary experience that Hurtigruten is proud to offer.

Light golden in colour. Hints of red apple and toasted bread. Creamy mouthfeel with a slight aftertaste of bitter almonds and honeydew melon. Traditionally vinified and aged on the lees for an extended period. Stored under the sea, 34 meters below sea level, followed by maturation above the Arctic Circle on the coast of Finnmark. Exclusively made for Hurtigruten. SU
