

**Orlando International Airport,
Centerfield Aircraft Rescue &
Fire Fighting Administration
Building**
Orlando, Florida

Client:
Greater Orlando Aviation Authority
(GOAA)

Total Cost:
\$2.35 Million

Nature of Work:

Under our Continuing Architectural Services Contract with GOAA, B+P provided architectural and engineering services for the new Centerfield Aircraft Rescue and Fire Fighting (ARFF) Administration Building. The one-story, 4,600 SF ARFF administration building is located to the north of the existing Centerfield ARFF building. The project included an awning covered walkway and landscaping between both buildings. This building has emergency power and consist of offices, storage, conference room, break room, restroom/locker, and support spaces.
