

Miami International Airport South Terminal Expansion Concessions

Miami, Florida

Client:
Miami-Dade Aviation Department

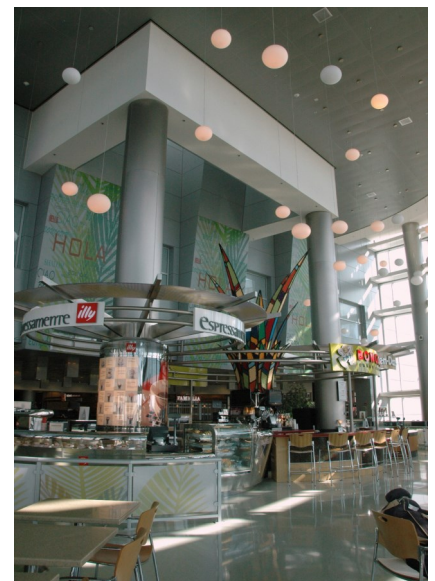

Nature of Work:

Included in Miami International Airport's (MIA) South Terminal Expansion, there was the inclusion for the South Terminal's Concessions Area. The MIA South Terminal provides for stylish, safe, peaceful, captivating and convenient environment to dine and shop during time between flights. The total area for the Food Court is 28,300 square feet and the Concession Corridor is 60,593 square feet.

The Food Court consists of International Cuisine Fast Food (Latin, Caribbean and Italian) as well as burgers and a bakery/deli. There are also two coffee and ice cream shops.

The retail included a café bookstore with coffee and pastries a duty free store, gift specialty store, fashion apparel, news and gifts and a personal care store.

The design intent was to create a world class retail environment that is relaxing and comfortable for troubled travelers and to maximize tenant visibility in order for shoppers to navigate with ease. We consider it essential to build with materials and finishes that are time-tested maintainable and durable.
