Brightline Trains

Total Cost:
\$12,000,000

Awards:
ABC Project of the Year Award, 2023
Excellence in Construction

ABC Eagle Award Recipient, 2023
Excellence in Construction

Nature of Work:

The Brightline Orlando Station spans 37,350 sq. ft. in the heart of the Orlando International Airport's 80,000 SF Intermodal Terminal Facility adjacent to Terminal C. Borrelli + Partners was selected, in collaboration with Big Time Design, to prepare construction documents for the new train station and bring Brightline's vision to life.

The beautiful station features two spacious and inviting lounges, SMART and PREMIUM. Both lounges are equipped with charging stations, TVs, and Wi-Fi. The Orlando station includes the Mary Mary Bar, which serves handcrafted cocktails and light bites. The signature sit-down bar is positioned at the far end of the station with a stunning panoramic view overlooking the train platforms. A classic flip-flapped message board located above the bar provides updated information on train schedules, boarding times, news, and other announcements. The station also features a market store, a children's play area, meeting rooms, self-service kiosks, luggage checks, turnstiles, and ticket purchasing stations.
