### **Nature of Work:**

Under our Continuing Architectural Services Contract with the City of Orlando, Borrelli + Partners, Inc. was selected to prepare design, construction, and bid documents for the renovation of the existing “Amway Infogarden” to the newly envisioned “Orlando Experience” within the Kia Center, formerly the Amway Center. The space created a new social environment for visitors to relax, recharge, and socialize. The space provides a fun visual icon or “selfie spot” for photo sharing and social media credit.
