Download Bitwarden

- To download Bitwarden, you can go to bitwarden.com/download pick how you would like to access your vault

The screenshot shows the Bitwarden download page at bitwarden.com/download/. The page has a blue header with the Bitwarden logo and navigation links: Products, Download (active), Pricing, Help, Blog, and Contact. On the right of the header are links for "Get Started" and "Log In".

The main content is organized into sections:

- Desktop**: "Access Bitwarden on Windows, macOS, and Linux desktops with our native desktop application." It features three download options: Windows (.EXE), macOS (Mac App Store), and Linux (.AppImage). A link "more desktop installation options" is provided.
- Web Browser**: "Integrate Bitwarden directly into your favorite browser. Use our browser extensions for a seamless browsing experience." It lists eight browser extensions: Google Chrome, Safari, Mozilla Firefox, Vivaldi, Opera, Brave, Microsoft Edge, and Tor Browser.
- Mobile**: "Take your password manager on the go with mobile apps for your phone or tablet device." It shows buttons for "Download on the App Store" and "GET IT ON Google Play".
- Command line**: "Use our powerful command-line tools (CLI) to write and execute scripts on your Bitwarden vault." It includes a link to "read the CLI documentation".
- Web**: "Stuck without any of your devices? Using a friend's computer? You can access your password manager from any web enabled device by using the Bitwarden web vault." It features a button "Access Web Vault" and a link to vault.bitwarden.com.
