(1) Total fee-related earnings ("FRE") and distributable earnings ("DE") are non-GAAP financial measures and do not have a standardized meaning prescribed under IFRS. Therefore, they may not be comparable to similar financial measures disclosed by other companies. Onex management believes that these measures provide investors insight into the profitability of Onex' recurring asset management business (FRE), and the strategic ability to redeploy capital in the business and/or return to shareholders (DE). The most directly comparable measure to FRE and DE is Onex' net earnings. Refer to the appendix for a reconciliation of net earnings, FRE and DE. Asset management fee-related earnings (loss) excludes public company expenses and other expenses associated with managing Onex' investing capital and is a component of total fee-related earnings.

(2) Data reflects LTM performance, change in value or realizations, as applicable. The investing capital per share growth rate presented is adjusted to exclude the impact of capital utilized for the acquisition of Falcon and for dividends paid during the period.

(3) The investing capital per share growth rate presented is adjusted to exclude the impact of capital utilized for the acquisition of Falcon and for dividends paid during the period.

(4) Carried interest has been adjusted to remove Falcon-related carried interest balances.

(2) Reflect total returns. Onex has provided the benchmark and index data for informational purposes only. Comparisons of any fund or strategy to a benchmark or an index is imperfect, including but not limited to, the following reasons: (i) the volatility of such benchmark or index likely will be materially different from the fund or strategy; (ii) such benchmark or index employs different investment guidelines and criteria than the fund or strategy; and (iii) the holdings of the fund and strategy differ significantly from holdings of the securities that comprise such benchmark or index. The performance of the benchmark or index was not necessarily selected to represent an appropriate benchmark or index to compare to the performance of the fund or strategy discussed herein, but rather, is disclosed to allow for comparison of the fund or strategy to that of a well-known benchmark or index.

(3) Certain of Onex' private credit investments employ leverage at the fund level, which will amplify returns/losses on the underlying portfolio. Accordingly, Onex' returns/losses on private credit investments relative to the Credit Suisse Leveraged Loan index are generally expected to reflect this amplification.

The presentation of this measure does not have a standardized meaning prescribed under IFRS and therefore may not be comparable to similar financial measures presented by other companies. Refer to page 27 of Onex' 2024 Second Quarter Report for further details concerning the company's cash and near-cash.

Fee-Related Earnings and Distributable Earnings

- (1) Management and advisory fees, and fee-related revenue include those fees earned in the Onex Partners and ONCAP Funds and Onex' retained portion of the management and advisory fees earned from operating companies.
- (2) Run-rate private equity management fees at June 30, 2024 are \$90 million.
- (3) Reflects compensation for the investment and client wealth management professionals in each business line. Compensation related to Onex' corporate functions that are allocated to the business lines are included with other expenses, net. This schedule excludes stock-based compensation and amounts paid to Onex and ONCAP management under the management incentive programs in connection with Onex capital.
- (4) Other expenses, net include direct business line expenses and those expenses of Onex' corporate functions, including compensation, allocated to the business line.
- (5) Credit includes the operations of wealth management.
- (6) Run-rate credit management fees at June 30, 2024 are \$89 million.
- (7) Fee-related performance fees are reported on an accrual basis and include unrealized performance fees in the period generated. Performance fees reflect the net amount attributable to Onex.
- (8) Public company and Onex capital investing does not incur direct business line compensation. Compensation reflects the allocation to the business line of Onex' corporate functions.
- (9) Fee-related earnings (loss) ("FRE") is a non-GAAP measure and does not have a standardized meaning prescribed under IFRS. Therefore, it may not be comparable to similar financial measures disclosed by other companies. Onex management believes that FRE provides investors insight into the profitability of Onex' recurring asset management business. FRE excludes realization-driven carried interest, which can be less predictable and recurring due to the long-term nature of Onex' private equity and private credit funds. The most directly comparable measure to FRE is Onex' net earnings. A reconciliation of net earnings and FRE can be found in the appendix.
- (10) Distributable earnings ("DE") is a non-GAAP measure and does not have a standardized meaning prescribed under IFRS. Therefore, it may not be comparable to similar financial measures disclosed by other companies. Onex management believes that DE provides investors insight into the profitability of Onex' asset management business and the strategic ability to redeploy capital in the business and/or return to shareholders. DE consists of the recurring FRE component, net gains (losses) from Onex' investments and the receipt of carried interest from Onex' private equity and private credit funds. The most directly comparable measure to DE is Onex' net earnings. A reconciliation of net earnings and DE can be found in the appendix.
