Coverage

Included in Coverage

The Pawp Emergency Fund covers unexpected and life-threatening emergencies.

An emergency is considered any serious, unexpected, and life-threatening situation requiring immediate medical attention.

Common emergencies include:

- Toxic Ingestion
- Choking & Difficulty Breathing
- Severe Blockages
- Severe Internal & External Injuries

Note: This list is not exhaustive. All emergencies are evaluated on a case-by-case basis by Pawp Vets.

Our experienced team of veterinarians will evaluate your pet via our video chat feature. In order to determine the emergency, you are required to video call or provide a video recording of your pet at the time of speaking to our vets.

Determining A Life-threatening Emergency

Our experienced team of veterinarians will evaluate your pet via our video chat feature. In order to determine the emergency, you are required to video call or provide a video recording of your pet at the time of speaking to our vets.

Ultimately, it is at the discretion of our vets to determine if your pet's condition is life-threatening and qualifies for the emergency fund. Each situation and pet is unique, and determining the emergency depends heavily on breed, age, weight and other characteristics. You will not have access to the emergency fund if the pet has been admitted prior to contacting one of our vets for funds.

Our vets will determine whether your situation qualifies for the emergency fund based on the conditions stated below. The emergency fund *only* covers option 1:

LIFE-THREATENING EMERGENCY.

1. LIFE-THREATENING EMERGENCY

Must seek vet care immediately and leave for help now

● Covered

2. CRITICAL

Highly recommended that the pet be seen within 24 hours

● Not Covered

3. URGENT

Make the next available appointment with their Vet (within 3 days)

● Not Covered

4. NON-URGENT

May need to see a vet at some point in the future

● Not Covered

5. NO-ACTION REQUIRED

Situation resolved

● Not Covered

Excluded from Coverage

- Vaccinations
- Any scheduled appointment or referral
- Deworming
- Non life-threatening emergencies
- Routine check-ups
- X-rays or ultrasounds unrelated to an emergency approved by our vets
- Prescription medications unrelated to an emergency approved by our vets
- Dental cleaning and routine procedures related to oral health
- Non-emergency surgeries
- Follow-up appointments for emergency care
- Secondary issues unrelated to an emergency approved by our vets
- Pre-existing conditions unrelated to an emergency approved by our vets
- Any other medical procedure unrelated to an emergency approved by our vets
- Emergencies associated with breeding or pregnancy issues

Medical Negligence

You will not qualify for your emergency fund if our Vets have previously recommended a visit to your vet clinic and you failed to comply. Waiting for medical care can result in an unnecessary emergency for your pet and we do not support medical negligence.

Pre-Existing Conditions

All pets are covered in the event of a life-threatening emergency, even if that emergency relates to a pre-existing condition. The fund cannot be used to cover a planned surgery or scheduled appointment related to the pre-existing condition. The fund can be used to cover emergency care related to a pre-existing condition.

Accessing The Emergency Fund

If you believe your pet is having a life-threatening emergency and need to access your emergency fund, follow these instructions:

- 1. Initiate a chat with one of our vets to determine if the situation is an emergency and qualifies for the fund.**

In order to determine the emergency, you are required to video call or provide a video recording of your pet at the time of speaking to our vets. Ultimately, it is at the discretion of our vets to determine if your pet's condition is life-threatening and qualifies for the emergency fund. Each situation and pet is unique, and determining the emergency depends heavily on breed, age, weight and other characteristics. You will not have access to the emergency fund if the pet has been admitted prior to contacting one of our vets for funds.

- 2. After the emergency is confirmed, the vet will instruct you to go to the closest emergency clinic or a vet clinic of your choice immediately.**

You must take your pet to the emergency clinic within 4 hours of referral in order to maintain access to your fund. Please note, you can go to any vet clinic of your choice, it does not need to be an emergency clinic.

- 3. When you arrive at the clinic, you should admit your pet for care. At certain clinics, you may be asked for a deposit upfront, which will be reimbursed by the end of your visit when the final invoice is paid to the clinic by our team.**

4. After you receive the final invoice, you should ask the receptionist or vet technician to call [+1-833-672-0026](tel:+1-833-672-0026) for our team to confirm and review the charges. You can also send a picture of the invoice to emergency@pawp.com.
5. After our review, we will provide payment up to \$3,000 for your vet bill, including a deposit left upon arrival if applicable. This is paid directly to the clinic. We do not reimburse anything to you, we only provide payment directly to the clinic.
6. Once the invoice is paid, you're free to leave with your pet.

Please note, you **must** contact our vets prior to visiting an emergency clinic for a complete assessment and referral. Unfortunately, we cannot provide payment for your vet bill without a referral from one of our vets.

Additional Terms & Conditions

1. There is a 14 day mandatory wait period upon starting your Pawp membership before the emergency fund is available to you. If you have just signed up and a vet determines you are having an emergency, the \$3,000 fund will not yet be at your disposal.
2. If you cancel your account and reactivate it at a later date, you will have a mandatory 14 day wait period after reactivating for your fund to be available.
3. The emergency fund is only available to you if monthly payments are made continuously and without interruption. If the payment method we have on file fails, you will lose access to your emergency fund. If you cancel your account, you will lose access to your fund immediately.
4. If you suspect your pet is having a life-threatening emergency and needs immediate care, you must consult our veterinarians before gaining access to your emergency fund. All emergencies must be assessed and referred by one of our vets through the Pawp platform. **A live face to face video call or a video recording is mandatory to determine if it is an emergency or not.**
5. The Emergency Fund only pays for the initial emergency care. All other follow up care is at the expense of the pet owner.
6. Clients cannot access any funds if the pet has been admitted to a clinic for the same issue prior to contacting one of our vets for funds.
7. You have up to a maximum of 4 hours to take your pet to an emergency clinic or any vet clinic of your choice after being referred by our vets. If you fail to admit your pet to the clinic within **4 hours** of speaking to our vets, the funds will not be released for your pet's care.
8. You may be required to provide proof of ownership of your pet in the form of a pet license or registration.
9. Your emergency fund is non-transferable to other parties and their pets. Funds are non-transferable to the pet owner.

10. Funds are restricted to a one-time pay-out regardless of the amount but up to \$3,000.
11. The Pawp Emergency Fund only covers cats and dogs, no other animals.
12. Some clinics require a deposit before accepting your pet for evaluation. Pawp cannot provide the deposit for you, however, upon receiving the final invoice, the deposit will be included in the final payment issued by Pawp. This means whatever deposit you left upon checking in will be credited back to your account at the discretion of the clinic.
13. You will not qualify or have access to your fund if our vets have previously recommended a visit to your vet clinic and you failed to comply. Waiting to take your pet in for medical care can result in an unnecessary emergency for your pet and we do not support medical negligence.
14. You can take your pet to any veterinary clinic located within the United States.
15. The emergency fund will not cover additional costs associated with euthanasia, such as cremation or memorabilia.
16. We do not cover emergencies associated with breeding or pregnancy issues.
17. In order to gain access to your emergency fund, we require completed profiles for all of your pets with their name, age, weight, breed, and a clear photo. If this information is missing, you will not have access to your emergency fund.

See our complete terms & conditions [here](#). As always, you can reach out to support@pawp.com if you have any questions or concerns.
